What They Did to Silver!

Presented February 2014 by Charles Savoie

I want to acquaint interested parties with some historical particulars concerning attacks against silver from the cartelized London/New York financial community and their subalterns in the U.S. and U.K. governments. I want us to look at a selection of only 15 men (there are many others) who have struck very hard blows against silver over the last century. Europe is not excluded; however the top powers that be in Europe historically shifted base of operations from the continent to London for the clear geopolitical reason that the English Channel and the North Sea are better military invasion insulators than any mainland European country has against its neighbors---in the same manner as a moat encircling a castle. There are endless arguments about groups struggling for power and a great deal of history to sift through. I had to reject arguments that the Vatican, the Pope, the Jesuits et al achieved or recaptured a whip hand over the Anglo-American power bloc. Central banking has been the cornerstone of world power for centuries and this is an invention of Britain over a century after Papal power was decisively rebuffed for the last time when the Spanish Armada fell to Britain in 1588. Plenty of power remains in Europe, of course, represented in such groups as Bilderberg, the former Europe-America Conferences, Trilateral Commission and the Club of Rome.

Other important groups include the Club of the Isles, a creation of the British Royals, Le Cercle and the 1001 Club. Joel Van Der Reijden, extremely important as a researcher on The Pilgrims Society, is the source for info on Cercle and 1001. He has stated that The Pilgrims Society is “the absolute core of the globalist movement,” an idea that I started entertaining in late 1973, five and a half years before I finally had a chance to confront a member face to face at a university speech. That was Sir Ivor Seward Richard, British U.N. ambassador, whose maternal grandfather was Secretary of State Seward who made the Alaska Purchase from Russia in 1867. Other U.S. based groups, the Skull & Bones Society of Yale for instance and the Bohemian Club out of San Francisco, certainly lack the global reach of The Pilgrims Society. These other organizations, Vatican organizations likely excepted, are under Pilgrims management. Did you see Gibson’s “Braveheart” movie? The Crown was in the business of forming
alliances, by bribery or otherwise, including giving away land stolen from others, over 700 years ago. This pattern has not changed into modern times. I don’t claim to know what the status of the Royals and the Rothschilds happens to be. As far as I know, either interest could outrank the other. It makes no difference because The Pilgrims Society is the most powerful influence network in history and both those groups were among the founders and surface in leaked lists over the years. The fifteen men I will profile here are excerpted from my public interest, free access documentary, “the Silver Stealers” however this presentation contains information I haven’t previously reached.

http://silverstealers.net/tss.html

Lyman Judson Gage (1836-1927, Pilgrims Society charter member 1903) was Treasury Secretary in the cabinets of Presidents McKinley and Theodore Roosevelt, 1897-1902, in which capacity he opposed silver in the monetary system. On September 6, 1901, President McKinley was shot, but the cause of death is stated as gangrene on the 14th! I believe the disease state was, like the gunfire, allowed to happen because people who were to become involved with the founding of The Pilgrims Society some 10 months later in London realized their American associates had misjudged McKinley on his stance regarding a central bank. Before going to Treasury Gage was president of the First National Bank of Chicago, and after Washington he became president of United States Trust Company on Wall Street. He was a three-time president of the anti-silver American Bankers Association (ask any member how they feel as to remonetization of silver; their monthly magazine, Banking, April 1965, page 117, called for criminalization of silver accumulations!) Gage was first president of the Chicago Bankers Association, twice president of the Civic Federation of Chicago and a trustee of the Carnegie Institution of Washington; he was a member of the anti-silver Stable Money Association. Gage took the financial editor of the Chicago Tribune, Frank Vanderlip, and got him into the banking business as his assistant at Treasury. Recall that Pilgrims Society member Vanderlip was at the Jekyll Island, Georgia meeting where the Morgan-Rockefeller (Pilgrims Society) interests finalized plans for the Federal Reserve System! Vanderlip wrote "Tomorrow’s Money" (1934) Gage---
Gage being mentor to Frank Vanderlip indicates his extreme importance in the organized campaign against silver, Vanderbilt having become a Federal Reserve Act planner! Very likely Gage was in direct communication with Rothschild and Rockefeller and similar interests.

The New York Times, December 23, 1908 reported "Jacob H. Schiff, A. Barton Hepburn and Others Say the Silver Agitation Cannot be Revived." Below, Alonzo Barton Hepburn, Pilgrims Society (Who’s Who In America, 1914, page 1092) who held regulatory positions in banking for New York State beginning in 1880 and in
1892-1893 was Comptroller of the Currency in the Harrison and Cleveland administrations, after which he campaigned against silver in the National Sound Money League. Hepburn became president of the Rockefeller/Astor Chase National Bank in 1899 and chairman in 1911 and a Federal Reserve Act supporter---

The American Bankers Association set up a currency commission in 1906, chaired by Pilgrims Society member Hepburn, fighting for another central bank. Anti-silver activist Hepburn ran the New York Chamber of Commerce after Jesup’s tenure (another Pilgrims member). Hepburn was placed on such boards as Bankers Trust; Columbia Knickerbocker Trust; Fidelity Trust; Maryland Trust; First National Bank; New York Life Insurance; First Security Company; American Car & Foundry; American Agricultural Chemical; American Cotton Oil Company;
Safety Car Heating & Lighting Company; Remington Typewriter; Sears Roebuck & Company; Studebaker Corporation; Woolworth Company; Texas Company (Texaco); and United Cigar Manufacturers. Hepburn chaired the anti-silver Economic Club of New York, 1907-1909 and was a U.S. delegate to the Pan American Financial Conference of 1915, where silver money wasn’t discussed. Hepburn was a governor of the anti-silver Bankers Club of America, along with various other Pilgrims Society members, and highly likely member Alexander J. Hemphill, director of at least 25 major corporations, whose son Clifford, a financier and board member of large corporations, surfaced as a Pilgrims member (Who’s Who in the East, 1957, page 396). Jacob H. Schiff, the other prominent financier mentioned, was a charter member of The Pilgrims New York in 1903. The Pilgrims New York 1914 leaked list, page 10 excerpt shows anti-silver activist Hepburn and a few of his very powerful associates---

William F. Havemeyer
C. Cortlandt Hay
Louis C. Hay
Job E. Hedges
Col. Sidney M. Hedges
William W. Henshaw
A. Barton Hepburn
Imre Josika-Herczeg
Col. William Hester
Percival S. Hill
The Magazine of Wall Street, November 25, 1916, page 232 said of Hill that “… his interests are so vast they keep him extremely busy” (American Tobacco Company) and called him “A tobacco crown prince who built a great fortune” page 228. The original Havemeyer was Mayor of New York, 1845-1849 and again in 1873-1874. The family once controlled “more than half the sugar interest of the entire country” http://en.wikipedia.org/wiki/William_Frederick_Havemeyer and he was an Astor confidant. The Van Cortlandt family was “an influential political dynasty from the seventeenth century Dutch origins of New York through its period as an English colony, then after it became a state, and into the nineteenth century” http://en.wikipedia.org/wiki/Van_Cortlandt_family they were major land owners and the Hay in his name appears a likely relation to a Secretary of State at the close of the 19th century, John Hay. Herczeg was an obscure (to the public) Hungarian figure of which all I see on the web was a connection to the French Count De Soissons, descended also from the Bourbon dynasty http://fultonhistory.com/Newspaper%2018/New% Henshaw was an insurance magnate. Hester owned the Brooklyn Daily Eagle Newspaper; Brooklyn Trust Company and Eagle Warehouse & Storage. Job Hedges was an attorney and U.S. commissioner of the International Fisheries Commission. He and Colonel Hedges were both insurance executives and the Colonel went to England and met The King, Patron of The Pilgrims Society (National Magazine, volume 38, 1913, page 714, London). Louis C. Hay ran the political organization of Henry Taft, Pilgrims Society, who eventually became President (1909-1913) and later Chief Justice of the Supreme Court (1921-1930).

British Viceroy of India, Lord Irwin, Pilgrims Society of Great Britain who became president of the London branch as The Earl of Halifax (1950-1958) struck a truly paralyzing blow against silver in 1926 by implementing the recommendations of the Royal Commission on Indian Currency and Finance (staffed by members of The Pilgrims London including Sir Henry Strakosch and Baron Kennet). Viceroy Irwin proceeded to preside over the melting and dumping of Indian silver rupee coins to the extent of hundreds of millions of ounces starting in 1927 but accelerating in the late 1920s to 1933 and afterwards till 1937 at “only” 35 to 40MOZ per annum. This silver dumping was the sole cause of The Great Depression! Even writers on the long side of precious metals have fallen for the seriously erroneous fable that the Crash in October 1929 caused the Depression.
The Crash wiped out much wealth, but it didn’t cause mass unemployment. At that time we actually had huge exports to China, India and the Far East and elsewhere.

When the value of their silver money was crushed by this Pilgrims Society conspirator, their purchases from U.S. export industries drastically plummeted. Certainly these export industries were largely Pilgrims Society controlled interests. Yet, a larger and more profitable goal was in mind---shoving the Far East and India off silver money necessary to drive the entire globe to full fiat. Attacks against gold from the same sources were to follow! The goal was to bulldoze the world towards full fiat systems by which The Pilgrims Society could “seize” and “absorb” wealth.

Baron Kennet (not shown here) who later chaired the Iraq Currency Board going into World War II, had railroad, real estate and timber interests, joined the boards of English Electric and Hudson’s Bay Company and was a friend of funny money economist John Maynard Keynes, who testified before the Royal Commission that silver was no longer needed as money; Kennet chaired the 1926 Royal Commission acting against silver---

The report of the Royal Commission on Indian Currency and Finance was submitted to Lord Irwin, then British Viceroy of India, who proceeded to oversee the melting and dumping of Indian silver rupees on the world market by the hundreds of millions of ounces, crashing the silver price to an all time historical low of 24.5 cents per ounce in February 1931, triggering the Great Depression by
wiping out the majority of the buying power of India and the Far East and China, to whom American industry could no longer export goods, throwing millions of workers out of jobs and into the freezing cold in wintertime, forcing Mexican silver mine workers to choose banditry as the only alternative to starvation after their government couldn’t send in enough corn they could subsist on, inciting the murder of American silver mine owners by laid off workers (New York Times, June 3, 1930, page 32) *AND CAUSING INTENTIONAL SEVERE DAMAGE TO SILVER HOLDERS AND MINERS ALL OVER THE WORLD*---

"ENGLAND HAS CAUSED THIS HAVOC TO THE WORLD’S FINANCES"

"SILVER MINERS THROUGHOUT THE WORLD ARE BADLY HIT"

---China Weekly Review, January 17, 1931, page 244.

"NONE KNEW BETTER THAN ENGLISHMEN THAT SILVER AS THE PEOPLE’S MONEY WAS BEING RUINED"

Lord Irwin (above), Grand Commander of the Star of India, became The Earl of Halifax and was president of The Pilgrims of Great Britain, 1950-1958. His grandfather was British Secretary of State for India; his family looted India and China for generations, and facilitated their looting for their blue blooded cronies. The first Earl of Halifax, 1661-1715, became Lord of the Treasury in 1692 and according to Wikipedia "the national debt originated from his proposal;" he introduced the bill creating the Bank of England in 1694 and became Chancellor of the Exchequer. Sir Basil Blackett, Pilgrims of Great Britain, authored "Planned Money" (1932) and was a director of De Beers Consolidated Diamond Mines and the Bank of England. Blackett was a member of the Anglo-French Financial Commission and an earlier Royal Commission on Indian Finance and Currency, 1913-1914, which paved the way for the sabotage against silver done by the successor commission in 1925-1926.

“Responsibility for the lowered value of silver is blamed by Reed Smoot, chairman of the Senate Finance Committee upon ‘a great power,’ which he did not name.”---New York Times, October 1, 1930, page 28

“The fact that the British Government for India had SEVERAL HUNDRED MILLION OUNCES THAT IT MIGHT DUMP ON THE MARKETS OF THE WORLD NOT ONLY REDUCED THE PRICE OF SILVER ONE-HALF BUT, BY ITS THREAT TO FURTHER INDEFINITELY REDUCE SUCH PRICE, DESTROYED ITS VALUE FOR CREDIT. The result was
inevitable. **PANIC EXISTS AMONG MORE THAN HALF THE PEOPLE OF THE WORLD WHOSE BUYING POWER IS MEASURED SOLELY IN SILVER.** It has cut in two the purchasing power of China, Mexico, South America, Asia and several European countries. It has made credit transactions with such silver using countries practically impossible. The reaction has been felt throughout the world.”

The April 5, 1931 China Weekly Review (Shanghai), page 164 noted---

“Even in 1930 when silver had reached the then all-time low of 34 cents an ounce, **BRITISH INDIA UNDER SUCH POLICY THREW ON AN ALREADY SATURATED MARKET 29,500,000 OUNCES OF SILVER. THE LAST THREAD OF CONFIDENCE AND HOPE IN THE MINDS OF THE PEOPLE OF THE SILVER USING COUNTRIES WAS BROKEN AND SPECULATORS IN ALL COUNTRIES COMMENCED TO DUMP SILVER ON THE MARKET.**”

Nevada Senator Key Pittman, China Weekly Review, January 31, 1931, page 318, stated---

“The natural law of supply and demand, reasonably constant over a period of a century, **WAS THROWN INTO CHAOS BY THE SILVER DELUGE, AND FALLING PRICES ROBBED WITHIN A YEAR ONE HALF OF THE HUMAN RACE OF ONE HALF OF THEIR WEALTH AND THEIR PURCHASING POWER.**”

**“BUT THE WORST IS YET TO COME, BECAUSE THE BRITISH GOVERNMENT FOR INDIA STILL HAS SEVERAL HUNDRED MILLION OUNCES OF SILVER MONEY THAT IT INTENDS TO CAST UPON THE MARKET OF THE WORLD IN THE FORM OF BULLION. THE MARKET CANNOT CONSUME IT. THERE IS NOT A DEMAND FOR IT, AND SUCH A THREAT WILL HOLD DOWN THE PRICE OF SILVER AND IF CARRIED OUT MAY ABSOLUTELY DESTROY ITS VALUE AS A MEASURE OF WEALTH, AS MONEY, AND AS AN INSTRUMENT FOR THE CARRYING ON OF TRADE AND COMMERCE.”**---CWR, January 31, 1931, page 336
THE BRITISH GOVERNMENT FOR INDIA BY ITS POLICY HAS STRUCK DOWN THE WEALTH OF INDIA AND DESTROYED THE PURCHASING POWER OF ITS SUBJECTS. It has not only injured its own subjects but it has equally and in the same manner destroyed the purchasing power of China, South America, Mexico, and every silver using country in the world. This has disastrously reduced the export trade of the United States and every other country. The producers of silver, although a small group by comparison with all of the other groups affected, have suffered even more deeply than the producers of other commodities. MINES THROUGHOUT THE WORLD HAVE BEEN COMPELLED TO CLOSE, ADDING HUNDREDS OF THOUSANDS OF IDLE MEN TO THE HORDE OF UNEMPLOYED.”

“A LARGE NUMBER OF CHINESE ARE FORCED TO LOOT TO LIVE.”

---Senator Key Pittman, China Weekly Review, April 5, 1931, page 164.

“CHINA IS HAVING THE HARDEST TIME THAT ANY COUNTRY HAS EVER EXPERIENCED.”

Viscount Halifax, Pilgrims Society, personally triggered The Great Depression by dumping Indian silver on world markets by the hundreds of millions of ounces, now came to America as The Crown’s Ambassador to loot Treasury silver
ostensibly owned by the American public. It’s tragicomical how the media raves about La Cosa Nostra, the Mafia, Sicilian Mafia, Mexican drug cartels (which would go bust if drugs were legalized—a lesser evil) and organized crime, the syndicate et al, and is silent on the most enormous network of thieves in world history who pillaged India, China, Burma, Australia, Africa and North America for centuries---

From the 1957 leaked list of The Pilgrims of Great Britain in London---
Patron

HER MAJESTY THE QUEEN

Officers of The Pilgrims of Great Britain

President

The Right Hon. The Earl of Halifax, K.G., O.M.

A Pilgrims Society king maker, Andrew Mellon, mega-magnate in oil, steel, banking, railroads and locomotives, aluminum, insurance, war industries, land, natural gas, electric utilities, hydroelectric power, ship building and more, with a lower ranking Pilgrims member, President Herbert Hoover, who made a significant fortune in gold in Western Australia, in tandem at the White House---
“PRESIDENT HOOVER, DUE TO BRITISH OPPOSITION, HAS REFUSED TO TAKE ANY STEPS TOWARD CALLING A SILVER CONFERENCE.”

---China Weekly Review, June 20, 1931, page 85. (British opposition was “Pilgrims Society” opposition!) The New York Times, October 9, 1931, page 16, citing “a former ambassador to Germany,” as of that date, the British had dumped a staggering 640 million ounces of silver onto the world market in their hell-conceived attack against silver! 640MOZ is 74.12% as much silver as was coined in India in the inclusive years 1900-1929 (Bulletin of the Pan-American Union, Washington D.C., “Silver in the West and in the East,” December 1932, start page 835).

Inner circle Pilgrims Society member Andrew Mellon (left above) on The Pilgrims executive committee (1933-1937) with his clear inferior, outer circle Pilgrims Society member, President Herbert Hoover, at the White House. Documentation of
Mellon’s role as a major silver suppressor, backed up by Pilgrims Society member William Taft, Chief Justice of the Supreme Court and former President, appears in The Silver Stealers. For purposes of this discussion we are evaluating Herbert Hoover as one of this particular selection of 15. In spite of the widespread misery, poverty, rioting, suffering, disease, semi-starvation and waves of suicides taking place all over America due to this Pilgrims Society attack against silver, President Hoover was loyal to his boundlessly dangerous associates in The Most Secret of Secret Societies and declined to help his country as emphatically as someone being offered a platter of goat feces would refuse to dine. It was OK that old men became homeless and had to subsist on soup kitchen charities because one of the rules of The Pilgrims Society says “The object of the Society shall be the promotion of the sentiment of brotherhood among the nations”---

Herbert Hoover, in keeping with the "long standing tradition" of United States Presidents being "honorary" members of The Pilgrims Society ("The Pilgrims of the United States," Profile Books, 2003, page 30) refused to call an international conference on silver unless the British did so first! His name appears in the leaked list for 1924 of The Pilgrims of Great Britain! No known textbook on government or political science mentions this tragic fact! Hoover knew the British attack
against monetary silver caused the depression and still refused to help his country.

President Hoover, in his address before the American Bankers Association at
Cleveland, on October 2, 1930, blamed the fall in silver prices on “overexpansion
of production” in order to shift obvious blame away from his British pals; however,
known production of 1922 through 1930 inclusive averaged 218,474,207 ounces
per annum---and there certainly was no “overexpansion of production;” indeed,
mine output was falling after the Royal Commission’s report came out in

Correcting Hoover’s intentional falsehood was Senator Pittman of Nevada,
commenting in the China Weekly Review, January 31, 1931, page 317,
commented---

“THE AMAZING UNIFORMITY OF THE ANNUAL PRODUCTION OF
SILVER THROUGHOUT THE WORLD MILITATES AGAINST ANY
THEORY THAT AN OVERPRODUCTION OF SILVER COULD POSSIBLY
HAVE BROUGHT ABOUT THE DEPRESSION. There was a time when certain
financiers and economists imagined that there was an unlimited amount of silver
somewhere that might be mined and dumped upon the world, but the world’s
annual production for 30 years proves the fallacy of any such presumption.”

Being an accomplished liar is on the criteria list for Pilgrims Society membership,
as is the lack of conscience involved in willingly destabilizing the finances of
billions of victims.

The China Weekly Review January 31, 1931, cited Nevada silver Senator Key
Pittman---page 315---

“In 1926 the British Government for India adopted the gold standard for India and
commenced to melt and sell as bullion on the world market the silver money of
India. IMMEDIATELY THE PRICE OF SILVER COMMENCED TO DROP
UNTIL, DURING 1930, IT HAS AVERAGED AROUND 34 CENTS AN
OUNCE, OR ABOUT ONE-HALF OF ITS NORMAL PRICE.”
The British notion of a gold standard in India was that people could not convert rupee notes into gold unless they could muster a minimum of $8,000 + equivalent in U.S. currency at the time; in effect, more lies and deceit!

"IT IS AMAZING THAT FOREIGN INFLUENCE CAN BE BROUGHT TO BEAR ON SUCH HIGH AMERICAN OFFICIAL CIRCLES. IT IS UNFORTUNATE THAT THE SCHEMES OF ONE GOVERNMENT COULD BE PERMITTED TO BLOCK A CONFERENCE OF ALL NATIONS ON SO VITAL A SUBJECT."---Nevada Silver Senator Key Pittman, New York Times, June 9, 1931, p. 49

The Commercial & Financial Chronicle, January 30, 1932, page 766 “President Hoover was accused by Senator Pittman (Democrat Nevada) of “tying the hands of the Senate” in failing to call an international conference on silver, following an 80 minute speech in favor of remonetization of the white metal by Senator Wheeler (Democrat Montana). “The President has no excuse for not calling such a gathering” Pittman asserted.”

"President Hoover, DUE TO BRITISH OPPOSITION, has refused to take any steps toward calling a silver conference."

"Leaders of the silver industry are understood to entertain little hope that the President will take the lead in calling a conference to restore silver" (Commercial & Financial Chronicle, New York, April 18, 1931, page 2869); "The President has no intention of calling a (silver) conference, it was authoritatively asserted" (New York Times, September 3, 1931, page 35).

"The silver countries or three fourths of the 2 billion of the people that live on earth have been deprived of their purchasing power. The buying power of silver countries lies dormant AND AS A RESULT WORLD BUSINESS IS PARALYZED."---R.J. Cromie, publisher, Vancouver Sun, quoted in China Weekly Review, October 18, 1930, page 236.

Following the nuclear explosions against silver intentionally planned by Pilgrims Society members Sir Henry Strakosch, Baron Kennet and Viceroy Irwin, our President, Herbert Hoover, unknown to the public a Pilgrims Society member since
at least 1924, refused to do anything to oppose this astonishingly conspiratorial attack against world use of silver as the world’s workhorse monetary metal! Their actions were reinforced by a devilish parade of other hellbound Pilgrims Society members; we will review only several others out of the London Pilgrims Society branch---their actions were backed up by our highest Federal officials---Pilgrims Society members!

"Neville Chamberlain, Chancellor of the Exchequer, said HE DID NOT THINK ANY USEFUL PURPOSE WOULD BE SERVED BY CALLING AN INTERNATIONAL CONFERENCE ON SILVER." ---Pilgrims Society member Chamberlain, World Money Power spokesman, quoted in New York Times, November 18, 1931, page 11---
Pilgrims Society member Chamberlain played his role in assuring Chancellor Hitler would strike at Poland in 1939!

The same dismal resistance to an international silver conference---to remedy the price collapse in silver intentionally caused by the British establishment (as always, Pilgrims Society members), was encountered from Prime Minister Ramsay MacDonald (below, the truculent looking conspirator). The April 23, 1933 New
York Times, page 27, noted "THE STRANGE COINCIDENCE OF MR. MACDONALD’S VISIT WITH AMERICA’S DEPARTURE FROM GOLD"
"THE PRESENT LOW PRICE OF SILVER AFFECTS 60 PERCENT OF THE WORLD’S POPULATION."

In this devil’s carnival of phenomenally subversive members of The Pilgrims Society London branch, we also note Sir Abe Bailey and Lord Salter of Kidlington---

According to http://en.wikipedia.org/wiki/Abe_Bailey Sir Abe Bailey, 1864-1940 (next photo), was an associate of Cecil Rhodes and "became one of the world’s wealthiest men" due to seizing diamond bearing lands in Rhodesia. The Times, London, August 24, 1931, page 12 had Bailey making this bizarre mercenary statement---
"I am surprised to see responsible statesmen advocating the remonetization of silver, which would add very little to currency AND IS A FORM OF CONFLICT AND REPUTATION."

PILGRIMS SOCIETY member, anti-silver financier, diamond tycoon, Baronet Sir Abe Bailey whose son John married Diana, eldest daughter of Pilgrims Society member Winston Churchill---

Bailey organized the Bailey group of gold mines in the Witwatersrand in 1894 before amassing a still larger fortune in diamonds [http://www.abebailey.org/view.asp?pg=bio](http://www.abebailey.org/view.asp?pg=bio) and was a member of the South African Parliament.
"GREAT BRITAIN IS THE GREATEST OFFENDER IN THE SINISTER WORK OF DEBASENING SILVER."

The Commercial & Financial Chronicle of December 10, 1932 page 3954 quoted Montana silver Senator Burton K. Wheeler stating--- “GREAT BRITAIN WOULD NOT AGREE TO MAKING SILVER A UNIVERSAL CURRENCY BASE.”

Lord Arthur Salter, Pilgrims Society of Great Britain, member of Parliament who became Baron Salter of Kidlington in 1953, opposed silver as money and argued against an international silver conference ("The Silver Problem," Political Science Quarterly, September 1931)---
"IT IS MONSTROUS THE WAY YOU HAVE DEPRESSED THE PRICE OF SILVER."

---Journal of Political Science, September 1931, page 329. Salter’s father owned steamship interests on the Thames River. The son, a British cabinet minister, was involved with The Crown’s first attempted world government, the League of Nations and later with the United Nations and became a member of the Iraq Development Board in the early 1950s.

"THE FAILURE TO RESTORE SILVER AS A MONETARY MEDIUM LED TO THE SECOND WORLD WAR AND THE COLLAPSE OF CHINA."

---The Mining Congress Journal, February 1957, page 118. The Mining Congress Journal overlooked that Pilgrims Society members Henry White and Lord Curzon also caused the second World War by guaranteeing Germany would become desperate and turn to a military dictator due to the excessively severe terms of the 1919 Treaty of Versailles. People were so desperate for employment during the Depression that it was made a matter of decreased political resistance to have the second World War, conveniently blamed on Germany. You cannot provoke a bear and not expect it to lash out in anger.

Not that there wasn’t an immense amount of subversion against silver emanating from both branches of The Pilgrims Society in seizing silver from the public (August 1934 through February 1937, 113,031,000 ounces); driving China off its centuries old silver standard as of November 3, 1935; “leasing” silver during World War II with 88,073,878.21 silver ounces from the United States Treasury (Mining Congress Journal, February 1947, page 84); dumping Treasury silver for decades to feed industrial users with Pilgrims Society members on their boards of directors; and many other horrid activities---described and documented in depth in The Silver Stealers documentary; we will hurry along with several more highlights in this greatly condensed version. Chairman of the Federal Reserve System board of governors for the longest term (1951-1970), was Pilgrims Society member William McChesney Martin Jr. who became a Rockefeller Brothers Fund trustee.

“Hiya Davey how ya be? Sure, I’m gonna keep turning the screws against the middle class! I guarantee to make inflation outpace payrolls! Body blows to silver
and hold gold at $35, right! $35 gold down to the last ingot! Sure we can tap Germany’s gold in the New York Fed vault, just screw those krauts and their beer gardens! Our Pilgrims buddies Al Hayes and Phil Reed at the New York Fed can load the gold for shipment to London! Drought for the miners and bonanza for our pet silver users is a matter of routine! You say after I leave the FED I’m gonna get onto a lot of big boards? Ha ha and whoop-tee-doo and Pilgrims Society to you too Mr. Rockefeller! Your associate Mr. Rothschild and our other Pilgrims Society pals over in merry old London know they can count on us for a gold candy store so we can keep buying the world with our funny money! Tell Viscount Harcourt at the IMF and The Earl of Cromer at the Bank of England I pass my regards along! I bask in your glow Mr. Rockefeller as we Pilgrims Society members do our “Here And Everywhere” routine and seize and absorb wealth from the world!” ---
In the Federal Reserve Bulletin, April 1963, page 469, we notice the testimony by William McChesney Martin Jr., Federal Reserve Board Chairman at a Congressional hearing---

"The Board believes it is unnecessary to utilize silver as part of the U.S. monetary system. Although some concern has been expressed that removing the silver "backing" from part of our currency might lower its value, I would not agree."

After leaving the Fed Martin chaired the Committee to Reorganize the New York Stock Exchange and appeared on such boards as Royal Dutch Petroleum, U.S. Steel, General Foods, Caterpillar Tractor, Freeport Minerals, American Express and Dow Jones & Company and became a Johns Hopkins University trustee.

Construction magnate Lou Revere Crandall (1893-1978), Pilgrims Society, built the Federal Reserve Building in the District of Columbia; the Supreme Court Building; the Department of Justice Building; the Department of the Interior Building; the Du Pont Building; dozens of others; 26 war manufacturing plants in World War II; and the United Nations Building (Who’s Who, 1966, page 462).

Pilgrims Society member Joseph Irwin Miller was the most prominent member of President Eisenhower’s National Commission on Money and Credit (1957-1961). The NCMC found no place for either precious metal in the American monetary system. Miller was chairman of Irwin Union Bank & Trust Company of Indiana; chairman of Cummins Engine Company (diesel truck engines); director A.T. & T.; trustee Ford Foundation; Yale University; Urban Institute; Mayo Foundation; United Nations Commission on Multinational Corporations; and chaired the President’s Commission on Trade Relations with the Soviet Union and Eastern Europe in 1965 was on the cover of the October 1967 Esquire Magazine---
In 1968 Pilgrims Society member Miller was national chairman of Nelson Rockefeller for President. So we were going to have a Pilgrims Society member as President in any and every case! What we got in the Oval Office was gold and silver suppressor, Pilgrims Society member Richard Nixon! Esquire Magazine, September 1977, ran a feature about Skull & Bones Society of Yale, falsely building it up as the country’s most powerful secret organization. Esquire has never ran any feature on The Pilgrims Society, which encompasses Yale and as many other universities and colleges as it cares to at any time and is the global financial network of the world’s largest landowners, The British Crown. Skull & Bones was founded in 1832 as a British opium front and quite important. Skull & Bones is to The Pilgrims Society what a large pickup truck is to a building size ore hauler at major open pit mines.
One of the numerous artworks held by Miller went for $80.4 million http://kylecrawford.blogspot.com/200 which undoubtedly was acquired for a tiny sliver of that sum. He was a member of the President’s Committee on Postal Reorganization and the President’s Committee on Urban Housing in 1968; and was a member of the central and executive committees of the World Council of Churches, 1967-1968.

Frazar Bullard Wilde, Pilgrims Society, chaired the anti-silver National Commission on Money and Credit. He was president of Connecticut General Life Insurance---Pilgrims Society members have a history of capturing control of huge pools of investment capital represented by insurance giants; the list is long. Wilde was a consultant in the early 1960’s to the Federal Reserve Board, where he probably helped them plan sabotage against silver coinage and certificates---that would be in step with his known views on silver while running the Commission on Money and Credit. That commission was the first major investigative body into the United States currency system since the infamous Aldrich Commission, which recommended the central bank we got saddled with in 1913. In 1965 Pilgrims Society member Lyndon Johnson, anti-silver activist, appointed Wilde to the Advisory Committee on International Monetary Arrangements (what the hell was that about? Gold swaps and silver leasing? Maintaining dollar hegemony?) ---
Douglas Dillon, second generation Pilgrims Society member whose father during the 1920s saved Goodyear Rubber from bankruptcy, bought copper mining interests for $146 million cash and created National Cash Register, on the cover of the August 18, 1961 Time Magazine, was Treasury Secretary from 1961-1965 and fought to hold gold at $35 the ounce as a ringleader of the London Gold Pool, and opposed monetary silver and fought rising silver prices as an industrial commodity—
"CENTRAL BANKERS HAVE A PREJUDICE AGAINST SILVER."

The Economist, July 13, 1963, page 166 reported the Treasury Department under Douglas Dillon and Robert Roosa (both Pilgrims Society members) helping the Silver Users Association (and the Federal Reserve System):

"DILLON, THE SECRETARY OF THE U.S. TREASURY, HAS SAID THAT SILVER BULLION WOULD BE RELEASED ON DEMAND TO PREVENT SILVER RISING."

Dillon, a member of his fellow Pilgrim Society member Nelson Rockefeller’s Commission to Investigate the CIA, ended up on The Pilgrims executive
Glenn T. Seaborg chaired the Atomic Energy Commission (AEC) from 1961 to 1971, which had purview with the Defense Department over the huge silver “calutrons;” Seaborg was a scientist in the Manhattan Project and was discoverer and co-discoverer of several elements (11) and isotopes (7) and a Nobel Prize winning scientist and was involved with the National Science Foundation. His name appeared in the leaked 1969 list of The Pilgrims, when he became a director of the World Future Society and appeared again in the leaked 1980 list was on the cover of Time Magazine, November 10, 1961 (Time also owned by dangerous-to-the-public Pilgrims Society interests starting with the Luce family) ---
Seaborg was a director of tech related corporations and had a very lengthy profile in Who’s Who in America. Seaborg had an office at Lawrence Berkeley Laboratory at the University of California, now operated in conjunction with the Department of Energy, successor to the AEC. Berkeley invented the cyclotron in 1939, a silver using device. The Commercial & Financial Chronicle, November 17, 1966, page 1757 in "Treasury Silver Today," mentioned that there was 65 million ounces of silver on loan to the Atomic Energy Commission, and that the silver was radioactive, apparently having been exposed to active isotopes. What became of that silver? I have not found the answer yet despite persistent searches. Someone says why not just invoke the Freedom of Information Act. Right, and I want to be careful to not limit my avenues of research but sifting through archives yields other
information. The bottom of the barrel may have been reached on that thread and FOIA appears to be the last unturned stone. Any of you are free to shoot for it if I get there first I’ll pass it on. We all know that silver is gone also but would like to know some details. Seaborg held so many positions and received so many awards even Science Officer Spock would be dazzled.

Rounding out 15 primary characters (in addition to others who unavoidably had to be mentioned) I’ve selected William E. Simon, Pilgrims Society, author of the hypocritically titled book “A Time for Truth,” in which he of course made no mention of the financial world’s top Secret Society! The book was published in 1978 by his Pilgrims Society pals running Reader’s Digest Association. Like Seaborg, Simon eventually had a very lengthy profile in Who’s Who in America. Paul Volcker will be the final spook we take a glance at, and before doing so, may consider putting welding goggles on first!
Simon was Treasury Secretary, May 1974-January 1977 in the Nixon, Gerald Ford (above) and “peanut” Carter administrations. From the 1976 leaked Pilgrims list; if it’s important enough for the President to be involved in, it’s criminal to withhold this matter from the American public---

Second generation Pilgrims Society member Walter B. Wriston (we visited his father already, also a silver suppressor) as head of Citigroup predicted during William Simon’s tenure as Treasury Secretary that gold prices would fall back to $35 per ounce, from $103.50, where Simon bombed it down to from the $200 level http://www.kitco.com/ind/Downs/aug042004.html

Wriston authored (1997) "The Twilight of Sovereignty," adding to at least hundreds of confirmations that The Pilgrims Society seeks a world government. He chaired Reagan’s Economic Policy Advisory Board, 1982-1989 and was a director of General Electric and General Mills. Steve Forbes, son of a Pilgrims Society member who more recently also became a member, said he regretted Wriston was never Treasury Secretary or chairman of the Federal Reserve System http://www.forbes.com/2005/01/21/cz_sf_0121wriston.html Steve Forbes an advocate of free markets? Not really! Stevie boy doesn’t want to get rid of the FED; he does however feel that Pilgrims Society members should run it! IMO Janet Yellen is just a flunky who’ll do as told.
William E. Simon, profiled at Silver Investor in "Treasury Official Lies About Gold," was a Pilgrims Society member and as Treasury Secretary, bombed the gold price for almost a 50% decline; he promised select Congressmen a tour of Fort Knox to inspect the gold inventory, but characteristically reneged; as a COMEX governing board member, Simon took part in the destruction of the Hunt/Arab silver play just after mid-January 1980---

Simon addressed the International Monetary Conference in Amsterdam in 1975. Seated was Pilgrims Society member Gabriel
Hauge of Manufacturers Hanover Trust and on the steering committee of the annual Bilderberg Conferences, The Pilgrims subsidiary for indoctrinating transitory political figures ---

According to the Australian League of Rights at www.alor.org/Volume11/Vol11No34.htm ---

“The world's Money Rulers are trying to phase out gold as the basis of monetary reserves. We believe that the most powerful group of International Finance operators is aiming to have International Monetary Fund Special Drawing Rights (S.D.R.s) accepted as the World Reserve Currency. This does not please such people as the French monetary authorities who are sitting on large gold reserves. The International Monetary Fund has very recently been "dumping" gold in the world's bullion markets. The United States' Secretary of the Treasury, Mr. William Simon, intends that the role of gold will be phased out of international monetary dealings. **MR. SIMON REPRESENTS THE MOST POWERFUL GROUP OF INTERNATIONAL FINANCE OPERATORS.**”
Simon served as a governor of the Asian Development Bank; the Inter-American Development Bank; the World Bank; and the anti-precious metals IMF---

Simon held a plethora of positions including director of Power Corporation of Canada; Citigroup; Halliburton; Xerox; Dart Industries; INA Corporation; and was a policy maker in such entities as Organization for European Cooperation and Development; Group of Ten; U.S./U.S.S.R. Trade & Economic Council; U.S./U.S.S.R. Commercial Commission; U.S./Japan Joint Economic Committee; Emergency Loan Guarantee Board; Oil Policy Committee; Federal Energy Office; Federal Financing Bank; Cabinet Committee to Combat Terrorism; Council on Wage and Price Stability; East West Foreign Trade Board; Energy Resources Council; John M. Olin Foundation; Development Loan Committee; National Council on Organized Crime; National Commission on Supplies and Shortages; Advisory Committee on Export Policy; Salomon Brothers; Union Securities; Blyth Eastman Paine Webber; Heritage Foundation; Hoover Institution on War,
Revolution and Peace; Advisory Committee on Reform of the International Monetary System; National Commission on Productivity and Work Quality; Agricultural Policy Committee; Mont Pelerin Society; Lafayette College; Hudson Institute; Federal City Club Washington D.C.; Brazilinvest; Joint U.S./Saudi Arabian Commission on Economic Cooperation; and others (Who’s Who in America, 1981, page 3045).

This brings us to Paul Volcker, who chaired the Federal Reserve System in D.C. (August 1979 to August 1987) during which time he shafted gold and silver investors and miners by such low blows including telling U.S. banks to not lend for “speculative” gold and silver buying; and arranging a “bailout” loan for the Hunts in the wake of their crippling margin calls by spring 1980. The loan was syndicated from various Pilgrims Society members as Alfred Brittain III of Bankers Trust; Sir Dennis Weatherstone of J.P. Morgan & Company; William Ira Spencer of Citibank; and others. The loan was structured so as to cause the Hunts to be compelled to relinquish some 59 to 60 million silver ounces, which took place by 1986! All that bullion was of course dedicated to global silver price dampening campaigns. Volcker became head of the Group of 30 in D.C., representing a consortium of foreign central banks in league with the Federal Reserve System and the Bank of England in suppressing the twin monetary metals. We must assume this central banking syndicate has leased silver and swapped gold for price suppression http://www.group30.org/ Volcker became a director of the United Nations Association! I do see that The Pilgrims plan is to so destabilize and wreck America as to make it feasible for a total loss of national sovereignty in a United Nations takeover! He was a charter member of Rocky’s Trilateral Commission and often appeared at Bilderberg and went originally to the FED post after having been one Rocky’s legion of hatchet men at Chase Manhattan Bank. He’s the crook who once said gold could fall to $5 the ounce! Now we see Volcker, a vice president of The Pilgrims at least as of 2004 (and known member at least as of 1980) as Obama’s chief economic advisor---
Here’s one of the rare mentions of the group, from The Times of London (Pilgrims Society source), February 10, 1982, page 10---
Tower power

The Pilgrims, who promote Anglo-American understanding, have Senator John Tower, chairman of the United States Senate's Armed Services Committee, coming to lunch at the Savoy on February 23. Tower, a tough Republican who won Lyndon Johnson's seat two decades ago, is a powerful figure, in some senses outranking the well-publicized Secretary of State, Alexander Haig. On the other hand Haig was a general. Tower, the only enlisted reservist in Congress, is still officially a chief petty officer.

I am well aware that these United States have been drained of gold and silver under the management of these Pilgrims and that includes Fort Knox gold, Treasury gold and silver, COMEX gold and gold once stored by other nations, too trustingly or by coercion, at the Federal Reserve Bank of New York. It also seems indicated that most of this gold has gone to China followed by also large recipients including India and Russia and others including Arab oil states. You ask how do The Pilgrims as a society figure to keep hold of their world power when most of the gold has moved out of their grasp? I submit the following---we have no way of knowing how much gold across the years has been accumulated by individual members. Rumors about Rothschild owned gold accumulations abound on the web. These Pilgrims aren't stupid, but like anyone, might go too far and fall into
their own trap; situations might go beyond their ability to manage in their long established “thesis versus antithesis yields synthesis” formula. It’s definite they pushed the Czars out of power in Russia in 1916-1918 and backed the Soviet Red Revolution from both London and New York. It’s also definite they wrecked silver money with many documented attacks, the single largest such being that started by Viceroy Irwin in 1926 out of British India, and that they arranged to shove China off its old silver standard by late 1935 as well as assisting the Red takeover of China. My best postulate is they intend to so weaken the United States by exporting industry, lowering living standards, increasing debt and fomenting social strife, that it can finally be recovered as a British Crown colony, under the guise of emergency United Nations control; and that they further intend to maneuver Russia and China to oppose each other in a Middle East conflict. If that happens and America, Britain and Western European allies manage to remain withdrawn from battlegrounds, the Russians and Chinese would so diminish their power as to allow these Anglo-American conspirators to revisit the type of world power they climaxed at in autumn 1945.

Members of The Pilgrims Society from both branches have been active since the start in front organizations such as the American-Russian Chamber of Commerce; the U.S./U.S.S.R. Trade & Economic Council; the National Committee on U.S.-China Trade and other groups opening up Russia and China to outside trade and internal development. Much Chinese silver was “leased” into Western markets at least from the early 1960s and likely into at least the mid-1990s for price suppression, very likely in return for technology. We encounter high profile Londoners on boards of Russian and Chinese industrial and banking entities and must expect most of these worthy gentlemen are members of The Pilgrims Society. From Soviet Life since renamed Russian Life; September 1974, page 7--- from; notation NOT in the original---
David with Red Chinese official circa mid 1970s---
The best thing Russia and China can do for their national interests is refuse to be suckered into warfare connived by The Pilgrims Society and all its associated think-tanks---RAND Corporation; Brookings Institution; International Institute for Strategic Studies; Center for Strategic and International Studies; Carnegie Endowment for International Peace; Council on Foreign Relations and others. Below, General Lord Guthrie of Craigiebank, neck deep with the Royal family and the Rothschilds, member of The Pilgrims Society of Great Britain and a trustee of the International Institute for Strategic Studies which maintains an “Armed Conflict Database” and a “Global Strategic Review” http://www.iiss.org/ This top ranking British military figure knows the advantages to be gained if Russia and China can be tricked into head on conflict---
The main thing we should work for is public exposure of these neo-redcoat Crown loyalists in our midst and insist on a Congressional probe into The Pilgrims Society; to force release of current membership lists for both branches, including their waiting lists; to publicize who the members are; to encourage activists to protest outside their offices and home residences and at banking and corporate board meetings and speeches; to ban members from directly or indirectly financing political candidates; and to ban them and members of their subsidiary globalist groups from holding any Federal appointed posts, including Ambassadorial posts; and to bar Admirals and Generals, including retired, from joining the Society. I
hope rank and file metals investors can nudge more sites to cover this research. Ask metals conference speakers about it! Bring it up at annual general shareholders meetings. Awareness is spreading across many sites outside of gold and silver as to this group’s heavily covered up existence, its intentional low profile; and the fact that if the President or Congress nationalizes hard gold and silver causing the public to forfeit their financial security---The Pilgrims Society will be the sole source responsible for such destructive action! That includes tampering with mining shares and mineral rights! The fabled Millennium of history may indeed not be so far off, after some cataclysmic years have elapsed. Time for The Pilgrims Society and related globalist organizations to DISBAND! This objective is catastrophic for civilization---

"A Secret Society gradually absorbing the wealth of the world."

--- Last Will & Testament of diamond monopolist Cecil Rhodes.

The world is ready to see the sun set on the Anglo-American Empire. The English language, the British Isles and America will continue to exist but no longer meddle in other peoples affairs nor cause interventionary wars by blaming it on others! We need no “special relationship” with the United Kingdom! More States are growling about actual secession, in large part due to the awful ills of Federal Reserve currency and that Washington keeps increasing the national debt to the world bankers! All State legislators should be made aware of the capstone role The Pilgrims Society has played in driving the world to synthetic money. Interested parties are encouraged to forward this research to Mexican national and state legislators.

http://nosilvernationalization.org/

We appear on the edge of a large upmove in mining shares. As a friend I remind you---no trailing stops means no protected gains! Stops must be reset higher as long as the trend continues! That means checking twice during trading hours and once after hours. Place immediate sell order on negative company announcements.
Going short after a stop is triggered or after share disposal following adverse company announcement is appropriate for those with more nerve, but don’t wait too long to cover. The end goal is not owning shares, but capturing gains. Buying back in requires the same daily diligence. This advice is in the category of life changing. I am hardly the first to dispense it; it bears repeating. There is no sense in riding a stock up to a high peak and riding it back down to a bottom. The mining share peaks of fall 2007 and spring 2011 may be repeated again as to their brevity of duration; be ready to act. If someone asks for mentoring---don’t deny them. I have seen it happen, and it is a disgrace. I think by helping someone with this counsel, afterwards gratitude will be expressed by helping me expose this horrid Pilgrims Society that is such a threat to our wealth, health and freedoms.

Please help a homeless person (not a panhandler) and adopt a pet.
