

I Can't Believe I'm Seeing This Error Again!

AARGH!!

Presented June 2017

By Charles Savoie

("The Metals Historian")

And that is, chiefly, this wildly erroneous notion that Uncle Sam never took silver from the American public! I wish it had never happened, but it does no good to claim otherwise. The public record in over a hundred USA newspapers is completely against you if you think this never transpired! The Congressional Record is against you! The "Bible" of financial historians, The Commercial & Financial Chronicle, is against you!

I was so disappointed to hear some wildly bizarre errors stated as fact by the great silverite Chris Duane in this recent [video](#) he released titled "Silver CONFiscation REALLY?"

Chris, I can't believe these huge errors you stated! What, are you the last person in the metals community to not know about Executive Order 6814 issued August 9, 1934 that seized silver from Americans at 50.01 cents the ounce? If you KNOW about it and misrepresented matters regardless, I'd say God expects you to clean up your act. I can't believe anyone who's been a leader in silver commentary for years and years could miss an elephant in the bathtub like this, or worse, just paint it out of

the picture because he feels it could hinder silver sales! USA silver nationalization, 1934-1937, is one of the monumental facts in the history of silver! It would be like saying we never went off 90% silver coins! (A few proof coins for collectors don't count!)

<https://www.youtube.com/watch?v=389YrxCXIPo>

At 2:02 Chris says of the Federal government, "They then revalued that gold from \$20.67 to \$35.00. That is where the real crime happened, it wasn't in the confiscation."

Huh? The crime wasn't in taking gold from the public? Wow! I know what presidents Andrew Jackson, Martin Van Buren and John Tyler (their terms---1828-1845) would have said about that! They'd have been appalled and suggested a trip to the woodshed! They knew that gold and silver must freely circulate among the hands of business and the public; else their full monetary role is unrealized! The sacred Constitutional principle that Americans have an absolute, God given right to own precious metals and to use them as money was savagely violated by the sickening Franklin Roosevelt, to date, the most dangerous President we've had, by a very wide margin. And Chris says the confiscation wasn't the crime! God help us when our very leaders make such awful remarks! What about our Constitutional private property rights, Chris?

At 2:34 Chris says, "The other key aspect of this is that they only confiscated gold, **as they left silver alone.**" Well Chris, the fact that they "left silver alone" during 1933 does not add up to "they left silver alone," as silver bullion ownership rights were attacked on August 9, 1934, by Executive Order 6814, Roosevelt using as his excuse a bogus provision in the Silver Purchase Act

of June 1934 calling for the Treasury to hold silver bullion to the extent of 25% of the value of its gold holdings. Also the silver nationalized was claimed to be in reserve for minting silver coins. Well friends? Do you prefer heavy handed, thuggish eminent domain tactics used by an overbearing Government to acquire silver for coinage? Or would you rather see the great concept of opening the mints to the free and unlimited coinage of gold and silver? The mints would collect a fair seigniorage fee, and the free market, if allowed to function, would insure adequate supplies of Constitutional gold and silver coins for business and the public! This you won't hear from any member of the LOUSY American Economic Association!

Transfer of Silver to United States Under Nationalization Order—Receipts During Week of Jan. 11 Totaled 535,734 Fine Ounces

Silver in amount of 535,734 fine ounces was transferred to the United States during the week of Jan. 11 under the Executive Order of Aug. 9, nationalizing the metal. Receipts since the Order was issued and up to Jan. 11 total 111,907,000 fine ounces, it was noted in a statement issued by the Treasury Department on Jan. 14. The Order of Aug. 9 was given in our issue of Aug. 11, page 858. In the statement of the

Commercial & Financial Chronicle--- Sure; yeah, right, OK and uh-huh, ***“they left silver alone!”***

Silver Transferred to United States Under Nationalization Order—Totalled 63,105 Fine Ounces During Week of Dec. 28

Announcement was made by the Treasury Department on Dec. 31 that 63,105 fine ounces of silver were transferred to the United States during the week of Dec. 28 under the Executive Order of Aug. 9 1934, nationalizing the metal. Total receipts since the order of Aug. 9 (given in our columns of Aug. 11, page 858) was issued, amount to 111,062,000 fine ounces. During the week of Dec. 28, the silver, according to the Treasury's statement, was received as follows by the various mints and assay offices:

	<i>Fine Ounces</i>
Philadelphia.....	3,578
New York.....	27,101
Denver.....	2,106
New Orleans.....	540
Seattle.....	29,780
Total for week ended Dec. 28 1934.....	63,105

Following are the weekly receipts since the order of Aug. 9 was made public:

[Here](#) is my 312 page report, primarily scans from The Commercial & Financial Chronicle, considered "the Bible of financial historians," showing that from August 9, 1934, inclusive through February 1937, American bullion owners

surrendered 113,031,000 silver ounces to Uncle Sam (“Pilgrims Society thieves” using government power to steal wealth from the public.” Gold is also covered in great detail).

”THE D.C. MOB NEVER TOOK SILVER! BAD BAD JOKE!”

The New York Times, Friday, August 10, 1934---

ROOSEVELT NATIONALIZES ALL SILVER AT A PRICE OF 50.01 CENTS AN OUNCE; PROMISES NATION BROADER NEW DEAL

“They left silver alone huh?” I’ve seen this kid’s error at several sites. A medical doctor who took an interest in silver said “silver was never made illegal to own.” Uh-oh! You CANNOT transfer expertise from one field, directly into any other field! A degree only answers for its own specific field of study! This is a basic error of logic. On contacting the site, the gentleman was good enough to post a retraction. Then a different major site refused to post any correction! I was told I am “a toxic person” for insisting they allow their readers correct information. They had that “silver was never wrested from the public by government edict” from the famous Richard Russell. Friends, I wish to God that the government had never taken gold nor silver from Americans. But it does no good to act like a stubborn braying jackass snorting that silver was never taken! At 2:47 Chris says, “In fact silver remained in our coins for almost 30 years after that, until they finally cut that anchor to monetary reality in 1964.”

Wrong again Chris, it was the Coinage Act of 1965---not 1964. If you think it’s not an error to be off by one year, any accountant would be howling at you!

At 3:47 Chris says, "I would say that the very first place they would start confiscating metal would be any domestic mine production."

In the 1933 gold event and the 1934 silver event, mining shares weren't taken. Now as far as TODAY, I have a tough time envisioning Uncle Sam taking domestic mines. Why? Ahh, because PILGRIMS SOCIETY members are lurking back of quite a few mining companies! For one example, Silver Standard Resources, changing its name to SSR Mining, had a multimillion dollar investment made in it last fall by the Queen of England, Royal Patron of The Pilgrims Society, of which President Trump is an "honorary" member. Trump will NOT nationalize gold and silver mines, when his overlord sponsors are there! The Van Eck Group, Pilgrims Society, holds over a third of SSR Mining. Pan American Silver has similar connections, which is why they never speak out against this monetary price suppression. Any mining exec or director having attended a "Royal" school of mines? You won't notice him saying how wrong it is for .9999 Canadian silver Maple Leafs to be stamped \$5 Canadian, nor for the Canadian one ounce gold pieces to be stamped \$50! Silver Standard mined out the large resource at Pirquitas in Argentina at gutter prices! Notice however these companies won't hedge. This tells you they know a great metals price transition is coming and since it is, they intend to profit. They do wish however that they didn't have any non-globalist shareholders. Tough, they can't shake us all out! Sorry bastards!

At 7:56 Chris states, "Gold and silver make up less than one percent of total financial wealth out there. In fact I'm willing to bet that since the silver market is so small they could confiscate

every single ounce in the United States and not be able to pay for one day's interest on the United States debt."

Well? The percent he claims is very likely correct at present. However, he fails to mention two points which MUST be mentioned! One, in a complete USD/Petrodollar failure--- Federal Reserve "currency" being almost totally rejected as money including domestically---precious metals are subject to taking on ENORMOUS value, filling the monetary vacancy of the former illusory wealth of the Federal Reserve "dollar."

In a precious metals price explosion, sustained, TPTB have no intention of allowing massive wealth transfer to persons not in on the Royal Families' globalist schemes.

Second, taking gold and silver to pay off a fraction of the national debt is no reason to consider. It's the previous point that matters as to the inevitable wealth expressed by precious metals as trash "money" fails. Another problem is TPTB, identified through lots of research as the Royalist sponsored "Pilgrims Society," is bitterly opposed to allowing capital formation outside its influence circles. "The seizure of the wealth necessary," Review of Reviews, May 1902, page 557, still applies. They've used government power for over a century to block others from forming capital and ruined many non-aligned rich---Jack Northrop of Northrop Aviation; Howard Hughes of Trans World Airlines; and most famously, the Dallas Hunt Brothers, who dared invest so massively in silver, the forbidden investment! The ruination of the Hunt silver play was a warning to other rich, "stay out of silver if you don't want us to ruin you!"

What a scope and what a horizon of work, at any rate, for the next two centuries, the best energies of the best people in the world ; perfectly feasible, but needing an organization, for it is impossible for one human atom to complete anything, much less such an idea as this requiring the devotion of the best souls of the next 200 years. There are three essentials : (1) The plan duly weighed and agreed to. (2) The first organization. (3) The seizure of the wealth necessary.

Very clearly, the excuse they'd cite for taking gold a second time is "national monetary emergency." The disclaimer they'd use for taking silver a second time is "national military emergency, we have no military silver reserve!"

We can oppose potential precious metals nationalization in two ways. First, spread the word that if it comes, it will be 100% due to the machinations of The Pilgrims Society in New York. As of 2014 info that cost me four figures to source (credit to Liam M. over in Scotland who generously underwrote Joel Van Der Reijden's foray to the City of London so I could get updated info;) it appears someone screwed up royally allowing him to view several lists! The Pilgrims Society has a long history of silver suppression, followed by gold suppression. Ancestors of members committed the "Crime of '73" by paying off Senators

to pass the infamous Coinage Act of 1873, which allowed silver as payment ONLY in amounts up to \$5 in any one payment! This caused MILLIONS to be foreclosed on their mortgages and they lost their homes and lands! It also ruined Far East trade (regardless of the silver Trade Dollars) because again, Far East buyers whose money was silver could not come here and make any purchase over \$5 in silver!

April 5, 1873, Commercial & Financial Chronicle, page 450 excerpt of the Coinage Act of 1873---NOTICE LINES SEVEN 7 & 8---

SEC. 15.—That the silver coins of the United States shall be a trade dollar, a half dollar, or fifty-cent piece, a quarter dollar, or twenty-five cent piece, a dime, or ten-cent piece; and the weight of the trade dollar shall be four hundred and twenty grains troy; the weight of the half dollar shall be twelve grams (grammes) and one half of a gram (gramme); the quarter dollar and the dime shall be, respectively, one-half and one-fifth of the weight of said half dollar; and said coins shall be a legal tender at their nominal value for any amount not exceeding five dollars in any one payment.

SEC. 16.—That the minor coins of the United States shall be a five cent piece, a three cent piece and a one cent piece, and the alloy for the five and three cent pieces shall be of copper and nickel, to be composed of three-fourths copper and one-fourth nickel, and the alloy of the one cent piece shall be ninety-five per centum of copper and five per centum of tin and zinc, in such proportions as shall be determined by the Director of the Mint. The weight of the piece of five cents shall be seventy-seven and sixteen hundredths grains, troy; of the three cent piece, thirty grains; and of the one cent piece, forty-eight grains; which coins shall be a legal tender, at their nominal value, for any amount not exceeding twenty-five cents in any one payment.

John Brisben Walker, who founded Cosmopolitan Magazine in 1889, made some astonishing remarks that appeared in the New York Times, February 3, 1931, page 24 in "Silver As A World Problem"---

“Demonetization of silver by England was originally worked by a few powerful financiers who saw an opportunity to more than double the value of their personal fortunes if silver could be demonetized in England, Germany and the United States. Backed by those who held mortgages on property throughout the world and who saw in demonetization the opportunity to double the value of their loans, the most powerful system of propaganda ever organized was put in operation. It involved the reiteration by propagandists unhesitating in their methods, by the exercise of every conceivable form of political and financial pressure. England’s action was one of combination among **A FEW POWERFUL INDIVIDUALS WHO WERE WILLING TO WRECK THE WORLD IF THEY COULD DOUBLE THEIR PRIVATE FORTUNES**. There was an immense fall of prices and extreme suffering resulted.”

Actually, the main drivers for the Crime of ‘73 were not from England; they were Western gold mining magnates led by James Ben Ali Haggin (owner of 160 mines, most of them gold mines), Lloyd Tevis of Wells Fargo (Haggin’s brother in law) and Collis P. Huntington who was also a giant railroad magnate. In fact the Crime of ‘73 largely took place planned in San Francisco, though hideously formalized on Capitol Hill. These Western gold mining kingpins certainly had more input into the Coinage Act of 1873, and Haggin later tap danced on the Rothschilds rumps six times in the world copper market! They had no wins over Haggin! He got a \$200,000 judgment against them in 1889 in a French court! (The Pullman Herald,

Washington State, August 17, 1889, front page!) John Brisben Walker continued---

“As if they had been a row of bricks, banks all over the United States fell down. Immediately those who had been living from hand to mouth, began a struggle for existence. Depredations occurred. I personally saw a procession of starving workmen--- estimated to be 10,000 in number---tramping along the Chesapeake and Ohio Canal begging for food, ready to work for a wage that would barely keep body and soul together. There were four batteries of artillery sent down from Washington to protect the houses and property of the Baltimore & Ohio Railway. **MEN COMMITTED SUICIDE BY THE THOUSAND.** Everywhere hopelessness and despair settled over the country. Pressure was exerted by banks upon all who refused to accept England’s single gold standard. The effect on India and China will never be known in their fullest horror. The immediate depreciation of their only stock of money, silver, stopped trade and starved whole provinces. **IT CAUSED MILLIONS OF DEATHS.**”

Now, years after the Crime of 1873, gold mining magnates led by Haggin appeared as trustees of the California Society for the prevention of Cruelty to children. Huh? These gold magnates caused these children’s parents to lose their homes due to silver demonetization, and next they proffered themselves as benefactors to children? What a monumental instance of bitter hypocrisy.

Delos Lake,	Ira P. Rankin,	W. H. Platt.

Alvinza Hayward was a gold baron. Hayward was a director of the Bank of California and after Haggin, was the biggest gold tycoon in this list of vile hypocrites. Hayward---

James B. Haggin, top gold mining baron in the WORLD in his time---

Haggin was a member of The Pilgrims Society New York as of the 1907 roster; and may have been a member by 1903. Through his ownership in Anaconda Mines, he enormously profited from the electrical revolution by being a major supplier of copper.

John B. Felton was president of the San Francisco & Oakland Railroad; railroad kingpins were in sympathy with the gold mining barons. [Newhall](#) was in sympathy with the big gold mine owners. F.F. Low was California Governor (1863-1867)

and a puppet of gold tycoons and their railroad magnate associates. Clayton was a political flunky for the railroad and gold mining titans. Haight was California Governor (1867-1871) and in the vest pocket of these interests. Colton was a large stockholder in the Southern Pacific Railroad, controlled by Collis P. Huntington, also a major gold mine owner. Oliver Eldridge was a Wells Fargo director and held interests in docks, natural gas and trust companies. Wells Fargo involved with the Crime of 1873? Absolutely. Just how much land these gold magnates were able to seize by foreclosure after their political agents on Capitol Hill passed the Coinage Act of 1873 is unknown.

However, its known that a peer of Haggin, Collis P. Huntington, who was bigger in railroads than he was in gold mining, saw his personal wealth double from 1869 to 1876 (California Bankers Magazine CBM, April 1897, page 804.) Haggin was well known to be substantially bigger in gold mining than Huntington.

In 1927, by order of Lord Irwin, British Viceroy over India, and extending into the mid-1930's, 640MOZ silver was dumped onto world markets, crushing the silver price down to 24.5 cents the troy ounce by February 1931. This figure, attributed to a former Ambassador to Germany, caused an 80% drop in purchasing power of silver currency countries (NYT, October 9, 1931, page 16). By wrecking the purchasing power of India, China and the Far East, this caused the Great Depression. At the time we had large export industries to the Far East, and

millions of American workers were idled because the purchasing power of the Far East was assassinated by British conspirators. Additionally, thousands of Western hemisphere silver mines were forced into being idled, causing many miners to turn to banditry as their only means of survival! Then in 1952 to 1958, we see Lord Irwin, elevated in title to The Earl of Halifax, as president of The Pilgrims Society of Great Britain. The Earl of Halifax, president of The Pilgrims of Great Britain in the 1950s, as Viceroy over British India, was the chief conspirator who intentionally caused the Great Depression as the British were determined to move the world off silver money---and unbelievably, succeeded!

As British Ambassador to D.C. (1940-1946) Halifax got 88,073,878.21 silver ounces from the USA Treasury through Lend-Lease for global price suppression purposes (Mining Congress Journal, February 1947, page 84, "Silver At The Crossroads"). Douglas Dillon, Treasury Secretary (1961-1965) led the charge against silver coins, joined by Pilgrims Society member William McChesney Martin Jr., then chairman of the Federal Reserve System. Note that Martin was a [Presbyterian](#) (Scottish Crown loyalist). Also I have to tell you friends, that Jews like Alan Greenspan, Ben Bernanke and Janet Yellen are mere PUPPET

FLUNKIES for the super rich Episcopalians who OWN the Federal Reserve System. The Church of England got here first (after having their way with the Dutch, with whom they later partnered) and grabbed the land, which became the basis of wealth and American banking systems. The Episcopal Bishop of New York is always a vice president of The Pilgrims. Just after The Pilgrims Society financiers got rid of our silver coins, they next staged silver giveaways at taxpayer expense, to their pet group, the Silver Users Association--- (Wall Street Journal) --- (The Silver Users Association now calls itself the Precious Metals Association of North America---just another alias, of course!)

P 14 WJS ===== *NOV 13*
Price of Silver Declines *1969*
At Government's Auction

WASHINGTON—Prices slipped a bit at the Government's regular weekly silver auction with buyers paying between \$1.9071 and \$1.9311 an ounce.

At last week's sale, accepted bids ranged from \$1.915 to \$1.97 an ounce for the 89.7% to 90% fineness metal.

The Government sold some 1.3 million of the 1.5 million ounces offered at the latest sale, for a total payment of more than \$2.5 million.

Treasury Secretary Douglas Dillon (1961-1965) spearheaded the evil Pilgrims Society drive to remove America from Constitutional silver coins. Naturally he also was in on the London Gold Pool battling for \$35 gold. His daughter became Princess Joan of Luxembourg, and Dillon became a director of

the silver suppressing Chase National Bank. Dillon was on The Pilgrims New York executive committee from the late 1960's till his journey down into hellfire in 2003 ("The Pilgrims of the United States," page 147, very short run book, 2003). ---

Still as a Pilgrims Society vice president we have (as of 2014 info) Paul Volcker, the member who broke the Hunts out of 60MOZ silver by 1986 due to terms of a "bailout" loan to the Hunts that Volcker organized after other Pilgrims Society

members like Lewis T. Preston Jr. of J.P. Morgan & Company and William Simon caused the Hunt-Arab silver play to be crushed on the COMEX! The Pilgrims Society of London and New York is the world central committee battling against silver ever returning as money. Their view on gold owned by common people is also that they must be stripped of it. Simon as Treasury Secretary (1974-1977) bombed gold down from \$200 to \$105, As the lead COMEX governing board member, Simon led the charge to wreck the Hunt-Arab silver play. This Pilgrims Society member Simon married Carol Girard, of the same old-line British sympathizer family tracing to Stephen Girard (1750-1831), in his time the richest American and main domestic power in the British linked First United States Bank (1791-1811). In July 2010 I released "Treasury Official Lies About Gold" in a research on Simon; see <http://nosilvernationalization.org/107.pdf> Simon became a Citibank director, Halliburton, and DOZENS of other entities---

Gold and silver need not be nationalized away from the public by Executive Order as in the sinister FDR years. If the vaccine campaign becomes sufficiently tyrannical, enough people will get sick, go to Pilgrims Society owned hospital chains, and be sucked dry of all their wealth. Of course, anything besides vaccines will be blamed, and it will be deemed a “mental illness” to question vaccines!

Besides accusing The Pilgrims Society in advance of conspiring to strip us of our hard metals, we must be legislatively active at state level. There is a bullion depository movement in several States. States MUST craft laws banning the Federal

Government from taking precious metals from the public! If they don't, how will citizens deposit metals in bullion depositories? States must also be forced to scrap civil asset forfeiture in any and all forms. This is incompatible with private property ownership rights. It's urinating on the Founding Fathers graves!

Chris, PLEASE stop telling people, "They left silver alone." We can't be in a rigor mortis about this! They have NEVER "left silver alone," it has been attacked and manipulated much more severely than gold for literally generations! There is no arguing with history without looking like a drunken clown with a dunce cap! Sell all the silver you want, but don't pretend in some wanna be bubble gum fantasy that the government "left silver alone;" the hell it did! Herewith another proof against this bitterly misleading fairy tale claim that "they left silver alone" --- see May 2005 release, <http://nosilvernationalization.org/46.pdf> ---

WASHINGTON: 1934

It's most unfair for Duane's fan club members to snap at me accusing me of trying to dampen his silver sales because I won't be silent when he puts out a serious historical error! That

happened to me at www.sgtreport.com when they made it clear that the cult of personalities matters more to them than respecting historical realities. What a sorry performance on their part!

All these things said, Chris Duane and I have had mostly cordial relations for years. If this ends it, that would be his determination; but I will not compromise history for **ANYONE**.

With all this background history on government interference with silver, we must assume the worst has been planned! The anti-silver forces CANNOT suddenly nor gradually become benevolent and decide to “leave silver alone!” Demonized financiers cannot change! They have no idea of “failing their ancestors” by leaving silver alone! They intend to create a wartime crisis and go into controls. They’ll say we have to have the public’s silver for military defense purposes. See, as of 1970 we did have a 165MOZ military silver reserve! But anytime the Government gets any silver stockpile together, it ALWAYS ends up being used for price management--- suppression of silver prices!

To sum; there are two practical ways to nip this silver stealing conspiracy in the bud! One, spread word that The Pilgrims Society, our top secret society andn dangerously sponsored by the British Royal family, intends to use the Federal Government to steal silver from us once again---to prevent capital formation

outside their influence circles! I've been publicly accusing them of this conspiracy since 2011; they have the top attorneys from Wall Street in their ranks; and have not moved to sue me! This they definitely will not do as they are strongly desirous that as few Americans as possible become aware of this nightmare organization they have!

Second, on a more practical level that more can understand, we have to lobby our State lawmakers to craft bills banning the Federal Government from taking gold, silver and platinum from the citizens of these States. When the Federal Reserve "dollar" skids to zero---as it is doing daily---the States MUST have Constitutional money within their borders to rebuild their finances! Along with lobbying State lawmakers for this – protection, they also MUST, must and must rescind all civil asset forfeiture! For this reason, last summer I moved my metals to a site in New Mexico, which decided to show respect for people's private property rights!
