William Arthur Waldegrave, Baron Waldegrave of North Hill, Lord Waldegrave of North Hill (1946---; Pilgrims Society London as of January 2013); Tory conservative; life Peer in the British House of Lords of the United Kingdom Parliament; career started in 1973 as a member of the Political Staff at the Prime Minister's Office---and named his son after a Rothschild---

The Pilgrims London 2014---

2013 Waldegrave of North Hill,
The Rt Hon the Lord
1994 Walduck, H Richard,
OBE, JP, DL

This character traces directly to Sir [Richard](#) Waldegrave (1338-1402 AD) a Member of Parliament from Suffolk England and Speaker of the House of Commons during the reign of King Richard II.

WALDEGRAVE or **WALGRAVE**, SIR RICHARD (*d.* 1402), speaker of the House of Commons, was the son of Sir Richard **Waldegrave** by his wife, Agnes Daubeney. He was descended from the Northamptonshire family dwelling at Walgrave. The earliest member of the family known, Warine de Walgrave, was father of John de Walgrave, sheriff of London in 1205. The elder Sir Richard, his great-grandson, crossed to France with Edward III in 1329

Edward III's won victories for England in the Hundred Years War with France, leading an invasion force of 10,000 knights. Sir Edward Waldegrave was knighted in 1517 by King Henry VIII and became a Member of Parliament and is interred at Essex England---

Another in this [line](#), William Waldegrave (1753-1825) was awarded the title Baron Radstock; he was a naval Admiral and became Governor of Newfoundland Canada---

Sir [Edward](#) Waldegrave was knighted in 1607 by King James I of England and later acquired the additional title of Baronet; he was a Member of Parliament. Henrietta, illegitimate daughter of King James II and his mistress Arabela Churchill, [married](#) Sir Henry Waldegrave, Comptroller of the Royal Household, a post he held in the 1680s.

Another in the Waldegrave ancestral line was [James Waldegrave](#), the 6th Earl of Waldegrave (1785-1835) and owned Strawberry Hill House---his grandfather “was perhaps the [most](#) intimate friend of King George II”---

**Naturally the interior is extremely opulent
And contains many high value artworks---**

William Waldegrave (1788-1859) ---

The Waldegrave family tree intersects by marriage with other dynasties, the Pagets and the Montagu family (Dukes of Manchester), all of whom achieved Pilgrims Society representation. Waldegrave [ancestors](#) were granted two Baronies with the triumph of William the Conqueror over the Saxons---all the way back in AD 1066! This dynasty has had 952 years to accumulate wealth! Some of them are interred at---

“He was the mildest mannered man, who ever scuttled ship or cut a throat!” ---quote from George Gordon Byron (1788-

1824). Walduck (1941---), H. Richard Walduck, whose name we excerpted with Waldegrave from The Pilgrims roster, is also a member of the Order of the British Empire and High Sheriff of Hertfordshire, represents a [fortune](#) publicly estimated at \$400 million in Imperial Hotels of London; these estimates are typically lowballed. The Pilgrims admissions committees in both the London and New York branches for more than a century have brought in prominent men in the hotel industry for two reasons 1) significant wealth is involved and two) having a member at the top of the hotel business adds security when meetings take place at nearby high powered exclusive clubs. (Conrad Hilton of Hilton Hotels was in The Pilgrims NYC 1957 roster). The London [Gazette](#) of July 18, 1826, page 1804, mentioned his ancestor having an office on Lombard Street in The City of London.

Next comes into view another precious metals antagonistic string puller, Lord Waldegrave of The Pilgrims Society---“The Lord” Waldegrave doesn’t have his Pilgrims activities listed in public info; not in his Parliament page; absent the leaked 2014 roster, we wouldn’t be able to pin this British Empire activist down---

Waldegrave really is a PILL-GRAM; a member of The Pilgrims Society; he's been involved in Pharma Rx pills; and he's involved in mispricing activities influencing mega-billions of grams of gold and silver! The Royal Mint has initiated a cyber currency it labels the [RMG](#) allegedly "backed" by gold in the RM vault. The CME Group, owner of the PM price managing COMEX, is the Royal Mint's partner in this [venture](#). However, a recent development is that this venture has been suspended pending [discussions](#) out of public view.

Here's another Pilgrims Society member with a large number of feathers in his cap---all influence outlets for The Society; all strings to pull. GW Pharmaceuticals develops derivatives of cannabis (marijuana) for treating things like epilepsy and has been named one of Time Magazine's "50 [Genius](#) Companies." I have nothing against marijuana being legalized nor being used for relief of various conditions users say it helps. If epilepsy is a disease of deterioration of the myelin sheath that encases nerves like special coatings encase electrical wires, then no cannabis is needed; the building blocks of myelin are needed such as---magnesium; vitamin D; DHA from fish oil; zinc; vitamin C; iodine; B vitamins; vitamin K-2. As of [November](#) 2018, Lord Waldegrave is currently a GW Pharmaceuticals board member. As this is written the stock price on NASDAQ is \$145.71. The

Drug Enforcement Administration and the FDA have both green lighted this company's "medication;" now, if it gives some relief, it's likely the nonpatented plant itself can do the same thing; but doctors only deal with prescription monopolies!

GW London HQ is at 1 Cavendish Place---

Lord Waldegrave is chairman of Coutts & Company, also known as Coutts Bank. Founded in AD 1693, Coutts has long had a strong linkage to the Royal family. Some say it was founded in 1692; it's the world's [seventh](#) oldest bank. It's also as of year 2000 a subsidiary of RBS Group, Royal Bank of Scotland. In 1841 Thomas Coutts married Harriet [Mellon](#), in all probability, a relation of the famous Pittsburgh Mellons who came to be heavy holders in more than 300 corporations, and in the top layer upper crust elite of The Pilgrims Society. In recent years Coutts Bank has emanated quite a smell as a money laundering bank.

“Coutts has a world-renowned reputation for a personal approach to private banking and wealth management. For over three centuries, we have perfected exceptional service. With an unrivalled appreciation of the intricacies of wealth, we understand both the subtlety and the complexity of the lives our clients lead. In the spring of 1692, a young Scot, John Campbell of Lundie, set up business as a **goldsmith-banker** at the sign of The Three Crowns in Strand, London. Earliest records show that, in addition to supplying plate and jewellery, Campbell offered a comprehensive banking service – discounting bills, making loans and taking deposits. Many of his customers were his fellow countrymen, including his clan chief, the powerful Duke of Argyll. Royal patronage began when Queen Anne commissioned Campbell to make the collars and badges for the Order of the Thistle. In 1708, he took another Scottish goldsmith, George Middleton, as partner. John Campbell died in 1712, and in the same year Middleton married the founder's daughter, Mary. George Middleton was heavily involved with the affairs of the French financier, John Law. Combined with the bursting of the South Sea and Mississippi bubbles in 1720, this involvement resulted in the ceasing of Middleton's payment for three years. In 1727, George Campbell, the founder's younger son, joined Middleton before welcoming a third partner, David Bruce, to the bank in 1744. The goldsmith practice had declined since the 1720s, so when

Middleton died in 1747, the surviving partners called themselves simply 'Bankers of 59 Strand', the bank's home since 1739."

Their wording is confusing; John Law was an Englishman who went to France and screwed up their finances.

"The name Coutts first appeared in the title of the bank in 1755. James Coutts, a Scottish banker, was taken into partnership by George Campbell upon his marriage to Mary Peagram, granddaughter of the founder. When Campbell died in 1760, James invited his youngest brother, Thomas, to join him and in January 1761 the bank became known as James & Thomas Coutts. When James retired in 1775, the bank's title changed to Thomas Coutts & Company – remaining so until Thomas's death in 1822. The bank flourished under the lead of Thomas and his partners Edmund Antrobus, Edward Marjoribanks and Coutts Trotter. In the final decade of the 18th century, the premises at 59 Strand were significantly extended and profits rose from £9,700 in 1775 to £72,000 in 1821. The long reign of George III was a period of major political, social and economic change.

Coutts customers were closely involved with such events as the American War of Independence, the French Revolution, the Napoleonic Wars and the opening up of India and the Far East. Thomas's customers (many of whom were also friends) ranged from the monarch to the Covent Garden keeper. When

Thomas died in 1822, his estate and 50% share in the bank passed to his second wife, Harriot, and the bank assumed the name Coutts & Co. As senior partner, Harriot (later Duchess of St Albans) took an active interest in the business.”

During the Revolutionary War the Church of England here altered its name to Episcopal Church as a ploy to take less heat. Certain wealthy merchants and financiers remained loyal to the King. “The opening up of India and the Far East,” yes, including the rapacious opium for silver “trade!”

“During the Victorian era, the bank had to face new challenges in a fast-changing world. Developing industries were hungry for investment and the new and successful joint stock banks meant fierce competition for the old-established private banking houses. There can be little doubt that the name, reputation and personal fortune of Thomas Coutts inspired confidence in the bank during his lifetime. Today Coutts maintains its London headquarters and also has a strong regional presence – 14 offices within the UK’s most diverse and vibrant centres. With a significant operation in the Channel Islands, Coutts is a leading choice for wealthy individuals and families seeking exceptional private banking and wealth management in the UK.”

Yes; this is the same Seligman family (similar to the Speyers) that has long had linkage to the more famous Rothschilds. Several Seligmans from earlier years in the New York branch of The Pilgrims are discussed in The Silver Stealers documentary expose <http://silverstealers.net/tss.html> and if you actually wonder why this topic gets no coverage at so many PM sites and on You Tube interview shows, here's the situation---no one is admitted to the Circle of Peers if all of their work is 100% free to the public! I was barely represented at Silver Doctors in an out of the way cubby hole and only allowed in at all due to being discussed by one of their favorites SRS Rocco. I recently told SD to delete my content due to the token only coverage, and the issue that so many of their promoted personalities have been getting bad public feedback in the comments section due to careers of poor timing calls; and I don't want my work at

a site that majors in pushing merchandising guests and posts the HIGHEST spot prices around, to deviously claim the lowest premiums! This is teetering on the edge of consumer fraud! Then too, many sites rave about the “cabal” but are deeply fearful to name any organization by name; here it is!

Now as to Lord Waldegrave; he is additionally chairman of The Coutts Foundation and we read

<https://www.coutts.com/coutts-foundation/foundation-who-we-are.html> ---

“Lord Waldegrave became Chairman of Coutts & Co on 1st January 2014. He was educated at Eton College, Oxford and Harvard. Having worked in the Central Policy Review Staff in the Cabinet Office from 1971-3, he became Political Secretary to the Prime Minister, Edward Heath. After a spell working in industry for GEC Ltd, he was elected to the House of Commons as Member of Parliament for Bristol West in 1979. He was made a Minister in 1981, and served continuously until 1997, including terms as Minister of State at the Department of the Environment, and at the Foreign Office. At Cabinet level he

served as Secretary of State for Health, Chancellor of the Duchy of Lancaster, Minister of Agriculture, and Chief Secretary to the Treasury. After losing his Commons seat in 1997, he entered the House of Lords as Baron Waldegrave of North Hill. Before joining Coutts in 2013, he worked successively at Dresdner Kleinwort Benson and UBS, and held non-executive posts at Bank of Ireland (UK) plc and Fleming Family and Partners. He is currently Provost of Eton College, Chairman of Biotech Growth Trust plc, and Chairman of the Royal Mint Advisory Committee.”

Lord Waldegrave is Anglican; not Jewish!

Cumberland Lodge is close to Windsor Castle---

Lord Waldegrave for several years served as chairman of the Rhodes Trust at Oxford University England. A really enormous amount of shocking details could be amassed about the treasonous Rhodes Scholars who come from America and get a British Empire globalist education at Oxford University, which scholarships are funded by the fortune Cecil Rhodes extracted from his diamond cartelization activities in South Africa. The Review of Reviews, May 1902, had Cecil Rhodes declaring about his Rhodes Scholars idea---**"I AM ON THE LOOKOUT FOR**

THOSE WHO WILL DO THE GOVERNING OF THE NATIONS IN THE YEARS THAT ARE TO COME."

William Waldegrave, Baron Waldegrave of North Hill

Bill Clinton met with Waldegrave in [2003](#)!

That article described the formation of The Pilgrims Society without mentioning it by name; there's absolutely no other group that fits the description; it was formed several weeks after that issue in London. The Rhodes Scholars would secretly be under the control and administration of The Pilgrims Society,

as confirmed by the case of Lord Waldegrave. A small percent of the most radically dangerous Rhodes Scholars would rise later into Pilgrims membership; a case in point being James M. Hester, who became a director of Union Carbide (Silver Users Association member) and rector of United Nations University. Hester was also a director of the Association of American Rhodes Scholars! He was a director of the Japan Society, Irving Trust Company, Lehman Corporation, Charter New York Corporation, Phelps-Stokes Fund, Institute of International Education, Brooklyn Institute of Arts and Sciences, Metropolitan Museum of Art, Association of Colleges and Universities of the State of New York, chairman of President Nixon's Task Force on Priorities in Higher Education, president of New York University, mutual fund director et cetera ("Who's Who in America," 1974, page 1416.

This is their globalist magazine since 1914---

It's hard to overstate how much influence these [Rhodes](#) Scholars have had and continue to have! They are far more influential than Skull & Bones Society! Dean Rusk (RS) became Secretary of State; Bill Clinton became President; Frank Holman became president of the American Bar Association; John Oakes became editor of the New York Times editorial pages; David Souter was a U.S. Supreme Court Justice; Nicholas Katzenbach became U.S. Attorney General; John J. Tigert, U.S. Commissioner of Education; Elmer David, Director of the U.S. Office of War Information in World War 2; J. William Fulbright,

U.S. Senator from Arkansas who voted for the Coinage Act of 1965 ending our 90% silver coins; William Vaughn, chairman of silver user Eastman Kodak; Carl Albert from Oklahoma, Speaker of the U.S. House of Representatives, voted for the perverse Coinage Act of 1965; John Brademas, Congressman from Indiana, voted for the Coinage Act of 1965; held positions too numerous to describe; became chairman of the Federal Reserve Bank of New York and a member of The Pilgrims by 1980; Daniel Boorstin, chief librarian, Library of Congress; George McGhee, U.S. Ambassador to Turkey and Germany; Philip Kaiser, U.S. Ambassador to Mauritania, Hungary and Austria; became a **Pilgrims** member; Robert Marston, director, National Institutes of Health and president of the University of Florida; General Bernard Rogers, Supreme Allied Commander of NATO; Admiral Stansfield Turner, director of the Central Intelligence Agency; Thomas Bartlett, president, American University of Cairo; chancellor, University of Alabama System; chancellor, State University of New York; Richard Gardner, Ambassador to Italy and Spain; Frank Wells, president of Warner Brothers and Walt Disney; Richard Celeste, Governor of Ohio, Ambassador to India, president of Colorado College; Rex Adams, chairman of Public Broadcasting System; James Woolsey, director of the Central Intelligence Agency and organizer of Project for the New American Century; Larry Pressler, Senator from South Dakota, author of the

Telecommunications Act of 1996; Richard Haas, president of the Council on Foreign Relations; Susan Rice, Ambassador to the United Nations and National Security adviser. We could continue, but the point is made. Rhodes Scholar influence is off the charts. And all Rhodes Scholar influence is under Pilgrims Society direction! In addition to his Rothschild family linkage, Waldegrave is deep “in” with the Windsors, the Royal family. His sister [Susan](#) is Lady in Waiting to Queen Elizabeth II and godmother to Crown Prince William and his brother was a page at the coronation. According to the link to the Guardian newspaper (never a mention of The Pilgrims Society) ---

“The earldom goes back to the early 18th century but the Waldegraves were big cheeses long before that: one was Speaker of the House of Commons during Richard II’s reign and another got a knighthood from Mary I plus the Chewton estate

Incredibly, the credits of Lord Waldegrave at his Parliament page march on and become more extensive, listing him as chancellor of Reading University, sometimes known as the University of Reading. Waldegrave is a member President's Advisory Board of the Royal Society. Founded at London in November 1660, the Royal Society received a (Royal) charter from King Charles II and is "the [oldest](#) national scientific institution in the world."

Their motto is "Take nobody's word for it." On April 29, 2016 they released an [announcement](#) "50 leading scientists elected as fellows of the Royal Society." Of these 50 they declare---

“Among the 50 are: Nuclear engineering expert, Dame Sue Ion, a world authority on nuclear power whose knowledge is sought by the Governments of the UK, USA and the European Union. Professor Dame Anne Glover has held roles in the political arena, including as Chief Scientific Adviser to the President of the European Commission (2012-2015). Her research at the University of Aberdeen is focused on soil microbiology and she has developed techniques to clean up polluted land. The newly elected Fellows include a strong representation of scientists in business and industry. They include Vinton Cerf, Vice President and Chief Internet Evangelist at **Google**; Simon Peyton Jones, Principal Researcher, **Microsoft** Research Cambridge; David Hight, forensic engineering specialist and Founding Director of the Geotechnical Consulting Group; and Professor Christopher Abell, University of Cambridge, ***whose work has changed the face of drug discovery.*** Professor Jennifer Doudna has been made a Foreign Member for her work on CRISPR-Cas9 gene editing technology that is ***revolutionizing the fields of genetics, molecular biology and medicine.***”

The Royal Society is essentially a globalist research group of scientists making breakthrough discoveries in an array of fields; these discoveries will then be used to further concentrate wealth on the part of their financial sponsors like Lord Waldegrave and other Pilgrims Society members and the Royals who stand atop the entire shadowy influence structure---

“The Waldegrave Estate, Chewton Mendip is situated on the Mendip Hills in Somerset, South West of England. This in an area that has been designated an Area of Outstanding Natural Beauty. The estate land consists of agricultural land and amenity woodlands totaling about 3000 acres. The estate properties consist of several large tenanted farms and buildings

servicing the agricultural land, a converted former cheese dairy which now provides an extensive mix of offices and light industrial units and some 30 residential houses and cottages, these are mostly scattered in and around the village of Chewton Mendip, with one or two more properties in Radstock. Most of the houses and cottages are let unfurnished on tenancies of between 6 months and 5 years. The commercial property and warehouses and storage buildings are available on a variety of terms and leases. Our woodlands are managed mostly for amenity, but also for some timber.”

“The Waldegrave Estate also still owns properties in the nearby former mining town of Radstock near Bath, these include the prominent former NatWest Bank building at 5 The Street, Radstock which will be available to rent in 2015 for the first time in over 100 years, and the former infants school next to the Church in the middle of the town, which is awaiting redevelopment. See development sites. The estate has belonged to the Waldegrave family for many generations. It was given to Sir Edward Waldegrave in 1553, by the then Queen of England, Queen Mary, also known as Bloody Mary. It still belongs to Sir Edward's direct descendants, the present 13th Earl Waldegrave and his sons, who live there. The main house on the estate, which was enormous, was used as a barracks during World War 2 by troops.”

We won't go over Waldegrave's earlier career blow by blow but have situated images below from his Parliament page showing what it consisted of. Members of The Pilgrims Society are sometimes called, by the few outsiders who are aware of the group's existence, "the people with endless biographies." You have had a taste of why. His chairmanship of the advisory commission to the British Royal Mint and its membership in the LBMA? You can be certain that his multiplicity of other interests including the broad educational field, has input suppressive of precious metals as money, to include economics textbooks and curriculum which entirely excludes mention of silver itself from monetary history. Waldegrave has large input at Oxford University, the University of Reading and Eton College.

On August 5, 2015, Lord Waldegrave was interviewed for Civil Service World, a United Kingdom publication, by Lord Peter Hennessy who as it happens is also a member of The Pilgrims London as of 2007---

2007 Hennessy of Nympsfield, The Lord, FBA

Like other members of The Pilgrims London on record as opposing Scottish national independence, Hennessy is bitterly against it. We won't review his list of [credentials](#) here.

“I was seriously impressed by this aspiring politician/scholar (he was – and remains – a fellow of All Souls College, Oxford), partly because by the late 1970s he was already such a connoisseur of the Whitehall machine and those who peopled it. For after Oxford and Harvard, he joined Ted Heath's Central Policy Review Staff, the fabled “think tank” led by the extraordinary Lord Rothschild, before becoming Heath's political secretary in No. 10 not long before the first of the two 1974 general elections which saw Heath's demise. William Waldegrave adored Victor Rothschild. He confessed to a pre-Rothschild weakness for the generation of outsiders who had done the embattled state real service during the Second World War (Rothschild had been MI5's bomb disposal expert). Did this give him a certain image of Whitehall?”

“Yes. It was a romantic idea, I think, drawn from half knowledge of the great men of Whitehall during the war, many of whom

were the other half of my heroes...because they were scholars; people like John Redcliffe-Maud and Oliver Franks” (both university men who became wartime permanent secretaries at a young age).

“What was so special about this scion of the great European banking family, Lord Rothschild?”

“He arrived at the bank on the day of the Great Crash and decided that was his contribution to banking. So he went back to science...and was a very good scientist and had been every Boy’s Own hero – a first class cricketer, George Medal for bomb disposal, taught to play jazz by Teddy Wilson...A Renaissance Man. And he was a tremendous believer in what, at its worst, can become a sort of scientism – that there is a scientific explanation for everything...I am more pessimistic than that myself. But it was great fun to be part of it...The thing he taught me...is the absolute commitment to the application of intelligence to the solution of problems. Rothschild was also a tremendous operator with a singularly liquid approach to melting the traditional caution and reticence of permanent secretaries.”

“Victor used to give lunches on Wednesday after the permanent secretaries’ meeting with sandwiches from the Mirabelle and what was called cider cup made by his butler

Rifleman Sweeney, which was mostly brandy and the purpose of which was to get the permanent secretaries drunk.”

That’s an excerpt; draw your own conclusions. The Waldegrave family has direct Pilgrims Society representation because The Pilgrims is, first and last, a Royalist sponsored group. The Waldegraves have been in near proximity to Royalty for centuries as significant nobles and aristocrats. The Rothschilds ALWAYS have representatives inside The Pilgrims; the last confirmation I have of a family member holding direct membership was Edmund L. DeRothschild from the 1974 London roster. After a very long consideration, I was forced to the view that the Royals permanently outrank the financiers!

A closing note!

<https://www.nytimes.com/2017/07/30/fashion/weddings/katharine-orf-jamie-waldegrave.html> The New York Times, July 30, 2017, reported the marriage of James Victor Waldegrave and Dr. Katherine Mallory Orf, a hematologist. James is the son of Lord Waldegrave on which this research piece is focused, and his wife Lady Caroline Waldegrave. The bride’s father is senior partner in London for Apollo Global Management main office NYC; his wife is a partner in M & D Investments in London and they both hold other notable positions. No; neither is in The Pilgrims as of the most recently acquired roster (2014); possibly since, or maybe on the waiting list for membership; but in any

case, definitely within the Society's influence circles! In all probability, Lord Waldegrave's son's middle name is Victor for his father's link with Victor Rothschild! James Victor Waldegrave is finance director of Coniq, a London "marketing and data company for shopping centers." Doubtless Young Master Waldegrave will be gradually propelled upwards into ever more stellar realms of wealth, connections and influence. James Waldegrave is now a [director](#) of Waldegrave Farms, Codilink, First Story Ltd. and Barley Mow Pub Ltd. Lord and Lady Waldegrave have [three](#) daughters---Katie, Harriet and Liza. The last link also mentioned Lord Waldegrave and **"the bomb attack he escaped."**

MY DEEPEST APOLOGIES!

Gee, I'm sorry I can't deliver any interesting content for interviews with USA Watchdog, SGT Report, Wall Street for

Main Street, Daily Coin, Reluctant Preppers, World Alternative Media, Solari Report, Financial Survival Network, X22 Report, Dark Journalist, Silver Doctors Elijah Johnson, Rogue Money, Future Money Trends, Sarah Westall, Dave Janda, Peak Prosperity, Palisade Radio and so forth. Because to them “interesting content” evidently means **“what do you have to market for purchase price to our audiences?”** If asked, they all insist they don’t get paid for these obvious sales and marketing promotions. Do you believe interviewers all do this for free? How many advertising businesses coast to coast provide free advertising for people selling things, then they ask the public to subsidize them by sending in donations? **So they can provide free marketing services to people trying to sell things to them?** You can’t “fight globalism” by misleading audiences as to financial relationships between hosts and interview guests! That’s my opinion as to what’s taking place. If you can see past blind personality worship of puffed up blowhards whose reason for being seems to be accessing your finances, what does this arena look like to you? The interviewers are helping guests draw money from audiences, and in return for that, the guests never compensate the hosts for these promotions? Sure! And you also know lots of hospitals that just never bill anyone! If you want to save \$997, you can get all free resource stock picks in precious metals at 321 Gold! Notice the interviewers hardly ever hold guests to account for bad price and timing forecasts

("silver will never trade under \$30 again," fall 2012, still as this is released in October 2018, wrong since mid-April 2013!) More recently we are told "silver will be \$100 in 2018" and then he added "or 2019" and if 2019, it could be on the final trading day and the "guru" would still be right. What a limp, wilted and hollow way to eventually be right.

How much ability does it take to cast a net over an increasingly extensive span of time?

The very tediously overused word "caveat" is a psychological trigger switch buzzword that allows a "silver guru" to say he's nearly never been wrong. "Silver will advance, unless it declines," that's a forecast? **There is the suggestion that one gets recognition as an "expert" if he/she is paying interviewers for promotional interviews.** We haven't arrived yet at anyone admitting payments are happening; it sure looks like it; smells like it too.

Stop tossing money for anyone's money grubbing subscriptions! They're only so many mosquitoes trying to draw blood from you. I was in on a private placement with major SSRI in 2001, without any newsletter subscription! If you've a local metals dealer, do business there to help him stay in business as it could become more RISKY to ship PM's!

It isn't cool to be a free public service information provider when all the interviewers and guests are there to siphon money from their bamboozled audiences mesmerized by misplaced hero worship of personalities getting timing forecasts wrong for tedious years on end. We'd appreciate it if they'd just admit those are paid promotions. Reading remarks at Silver Doctors from the rank and file and on You Tube, people are catching on---the interviewers and their merchandising guests are all out to bleed off as much income as possible from audiences whose minds they've successfully massaged for years. These nasty below the belt tricks of denying guests pay for their wares being boosted are losing traction however. This October 2018 item below suggests progress so people who donate will realize they're subsidizing people selling things to them---notice lower right hand corner and lower left! "Includes paid promotion" OKAY! This is VERY NEW and only came by way of official and unofficial inquiries and pressure from a small committee including me and a You Tube comment poster. Zang reps for a gold numismatic coin dealer. Does anyone seriously believe she gets interviews for ITM Trading all for free? How much inter-dealer trading goes on between ITM and Silver Doctors? No objection to inter-dealer trading! But would she be covered at SD without business relationship? Not likely! ITM refused response to my inquiry; I received torrid denial from Miles Franklin that money was paid to have Andy Hoffman boosted,

regardless that he had at least 62 interviews on this channel--- how many businesses do you know who are so GD smart they can get so much free advertising? **I reject the denials of interviewers and guest personalities!** This isn't human nature to provide free advertising to people marketing things! True, the notice at left could refer to pop up ads, but it may also start someone wondering, "Is the entire session really just a paid ad," it's inexperienced and unreasonably trusting to believe otherwise.

THE SYSTEM DIED. THE RESET IS COMING. -- Lynette Zang

Gold numismatics are remarkably bad instruments if needed for emergency barter money. Common date silver dimes are best and Mercury dimes are tops as no date check is needed; 1940-1945 issues are easiest to come by and have the least wear. I am happy to be swimming in dimes! Except that I have to cross state line to the west where they're discreetly stored, New Mexico being more respectful of private property rights. Texas, dominated by Republicans, acts like Democrats on property

rights! Still in some ways it's OK to reside on a street same as members of three different police agencies.

Start my own channel? My writing efforts take up too much time after my other necessities. Besides, these operators already have established presence and could have fast forwarded info to the public; it would take years to build a channel. If something isn't offered for purchase to viewers, the subject content can't possibly be of any interest! The interviewer's record of guests defines that this is their viewpoint! So then I must assume God will severely chastise me for not being after the finances of anyone who reads my research pieces! What a disgrace to make info available on an all free basis! Plus I sure haven't revealed any "Hidden Secrets of Money," huh? He leaves people in the kid's end of the pool.

No You Tube interviews (for which I'd earn zero income) and no linking of these unique research pieces, for two reasons 1) sites are very reluctant to allow discussion of specific persons involved in major scale organized conspiracies and 2) no one is accepted into the Circle of Peers in the precious metals and alt news community if they aren't offering something for purchase to the public. In September 2018 I broke with Mister Morgan and had my content removed after 17 years of association. His perennially bad silver price predictions have made him the laughingstock of many understandably cynical investors.

Regardless as long as he can pay You Tube interview hosts like Silver Doctors, Reluctant Preppers, USA Watchdog, Palisade Radio, SGT Report and others for promotional sessions, he'll continue to be in their parlance a "returning guest." Marketing newsletter subscriptions appears to be virtually his sole reason for existing. Note that all "returning guests" are all peddling things for purchase, despite that they and their interviewers all deny any payments made for these business boosting interviews. Interviewers do a magnificent job of massaging small intellects into hero worshipping characters like Lynette Zang, Catherine Austin Fitts, Gerald Celente, Rob Kirby, Harley Schlanger, Michael Pento, Jim Willie and the rest of the herd of merchandisers. A free info provider like me does NOT fit into these circles!
