**"I can smell gold a thousand miles away!"**

**---"Professionals for a Massacre" 1967**

**Ever seen a 10,000-ounce silver ingot? Read this MMMM series!**

Peter Hug spewed out misdirection in a Kitco [interview](#) on March 17, 2020. Hug worked for Nick Deak who had shady [connections](#). A far better view is at <https://www.sprottmoney.com/Blog/bullion-bank-and-central-bank-collusion.html> On March 19, 2020, Bob Moriarty of

321 Gold posted a brief, and childishy simplistic laughingstock [denial](#) that manipulation has just occurred to crash silver. It would win over anyone in special education class. This inadequately brief and intellectually incapacitated “golly gee whiz” article failed to address SHORT CONCENTRATION and POSITION LIMITS which Butler has long been champion of complaining about. Why address any point that shoots your la-la land idea down, Bob? **Powerful foreigners who were torched by concentrated COMEX silver shorts and complicit regulators were painfully aware of the illegal short corner in silver OVER FORTY (40) YEARS AGO BOB!** Nor did Bob address the obvious “rat’s rump on a banana split” interest conflicts of the scandalous staffing shuttle between the CFTC and the bullion banks! But! Bob now confirms himself as eminently acceptable in a “mental health” sense---“mentally healthy” people do not believe that big bankers are out to screw anyone! Even Treasury Secretary Douglas Dillon admitted plans to hold silver low “for many years to come” in The Economist, London, July 13, 1963, page 166. Silver (and gold) MUST be suppressed to prevent undue embarrassment to Federal Reserve “money” lest too many start thinking metals should be remonetized as currency! Also the COMEX unstated rule is that big banks can sell short what can’t be delivered, and they NEVER have to cover on an upswing! “Allocations” (rationing) of silver eagles has taken place for years, and would not have if a free market price for mined silver had prevailed! **Has Bob Moriarty been paid off, or is he just genetically missing the specific brain cells to grasp these matters? Does Mister “BM” know anything about the “Crime of 73?” Was it caused by a conspiracy, in the opinion of the millions of people whose wealth was destroyed by a tiny handful of gold magnates and their monometallic “gold only” subordinates in the United States Congress?**

Who is a bigger wheel, Eric Sprott or Bob Moriarty? Eric Sprott, very likely. Whose views does Eric Sprott routinely headline? Craig Hemke. Does Hemke conclude precious metals are manipulated? Yes he DOES!

**"RUMOR HAS IT THAT SOME WEALTHY SAUDI ARABIANS ARE

TO USE ITS INFLUENCE TO HAVE FREE TRADING RESTORED IN THE

Charles Savoie asserts that all PM is controlled by "The Pilgrim Society" Its certainly an interesting read! - Quote:

"The Pilgrim Society founded on July 24, 1902, with thousands of interlocking connections, is closer to the inner circle of the New World Order conspiracy than the CFR. The Pilgrim Society, initially funded by the Rhodes Foundation, is the most secretive and certainly the most dangerous such organization, and is in control of the world's money supply. The Pilgrim Society has controlled every president since Theodore Roosevelt."

On Friday the 13<sup>th</sup>, March 2020, and extending into March 16 Monday, we witnessed the Money Power lashing out against the monetary metals with a monstrous berserk ferocity that would make bloodthirsty pillaging Mongol horsemen seem like meek "castrati" choirboys. We entered into national emergency around March 16, 2020, and The Pilgrims Society has

another excuse to diminish the liberty of the people, who have no idea this group linking us even exists.

**“The most powerful international society on earth, the “Pilgrims,” is so wrapped in silence that few Americans know even of its existence since 1903.”** ---E.C. Knuth, “The Empire of The City: World Superstate” (Milwaukee, 1946), page 9.

**“This is the most powerful and secretive group in the world bar none”**  
---my great European colleague Joel Van Der Reijden

The following is from the Christian Science Monitor, December 2, 1964, reprinted in the House version of the Congressional Record on January 5, 1965, page 110--- Robert V. Roosa was a very key player with his boss at Treasury, Douglas Dillon, in eliminating silver coinage as of 1965--- both members of The Pilgrims Society---this information has **NO VALUE WHATSOEVER** to the “alt news” and “sound money sources” I am about to mention---

**“Much of the job of neutralizing dollars abroad to prevent a run on the U.S. gold stock was carried out by Mr. Roosa in cooperation with the Federal Reserve (note---chaired by Pilgrims Society member William M. Martin Jr.) HE NEGOTIATED FOR THE UNITED STATES IN SETTING UP THE LONDON GOLD POOL WHICH DAMPENED DOWN GOLD PRICE SPECULATION.”**

The text "The Pilgrims" is displayed in a large, yellow, serif font against a dark, textured background.

Members of The Pilgrims Society London drove Chunilal Saraiya to suicide by bullet in November 1913 after they broke his Indian Specie

Bank and plundered his 803 tons of silver. The Hunt brothers were not the first victim of this secret society which dragged the planet to fiat currencies. Two generations earlier, The Crime of 1873 transpired and it remains the most severe blow ever inflicted on silver holders, even more so than what the British did to silver to cause the Great Depression. The ruination of the Hunt brothers was a squirt gun compared to those howitzer events.

**In "The Fountainhead" (1943) Ayn Rand spoke of "the glaringly evident which everybody has decided not to see."**

The Pilgrims of the United States

**"THIS SINISTER ORGANIZATION, THE PILGRIMS OF THE UNITED STATES"** ---page 96, "War Plotters of Wall Street" (1915) by Charles Collman.

# *The* Pilgrims of the United States of America

**"I have seen the wicked in great power"  
Psalm 37:35**

In a 1913 [book](#) titled "The New Freedom," Woodrow Wilson reflected with an ominous and foreboding note---

**"Since I entered politics, I have chiefly had men's views confided to me privately. Some of the biggest men in the United States, in the field of commerce and manufacture, are afraid of somebody, are afraid of something. They know that there is a power somewhere so organized, so subtle, so watchful, so interlocked, so complete, so pervasive, that they had better not speak above their breath when they speak in condemnation of it."**

There can be no other organization Wilson could possibly have been cryptically alluding to other than The Pilgrims Society in New York; and we will lay bare 100 plus of these Worthy Gentlemen from The Pilgrims 1969 leaked roster. I want the unbiased readers to evaluate the details in this MMMM series and then ask---why the stonewall refusal of people like Mike Maloney and Chris Powell to allow any mention of this organization? Silver Doctors and Greg Hunter?

The final installment in this series of four to six parts (number to be determined) contains a postscript. If you feel you don't have time for the series, take time for the postscript at the series conclusion; it's an attempt to rectify an injustice done to dozens of well-known names in the silver sphere. The introductory pages of each installment are repeated each time for benefit of those who read only one presentation;

so, immediately skip the intro on successive presentations if you read this opener. However! Skimming over the presentations will not allow justice to be done to this historical overview I am providing to metals longs---at no charge. Giving a good overview of the metals suppressing community can't be done with real brevity---I have no "Jesus wept" text which can enlighten in two words.

Some details are definitely more relevant than others; the other details are for objective of demonstrating the web of influence of these people; and these other details are therefore ramifications, not "tangents" as Chris Powell misstated <http://www.gata.org/node/7424> on May 16, 2009---

"Another longtime writer about the silver market, Charles Savoie, had sought some years earlier to call attention to Johnson's market-rigging pledge. Though it includes much more politics than GATA's charter allows and flies off on dozens of conspiratorial tangents unnecessary to GATA's objectives, Savoie's work deserves acknowledgement, for its own sake and for establishing two bigger points. The first is simply biblical: "The thing that hath been, it is that which shall be; and that which is done is that which shall be done; and there is nothing new under the sun." Or as Harry Truman said more plainly, "The only thing new is the history you don't know."

"That is, the proofs of the gold and silver price suppression scheme are so numerous and constitute such a vast public record that even some conscientious students of the scheme can be surprised now and then. GATA would speak for this class too, giving full credit to those who, like Savoie and Lips and so many others, helped to pass the secret knowledge along. But if this knowledge is to prevail and save the world from the ever-more outrageous depredations of the financial class, it can be secret no longer and no one can be allowed to get proprietary about it.

It simply has to be shared -- no, proclaimed -- with credit if possible, but without credit is fine too."

Without credit is fine too? The community leaders won't even link this research. Let the rank and file decide if they want to read these presentations. Instead, the alt news and hard money leaders blacklist this research as relentlessly as regular media. Special thanks to Silver Market News Online which very exceptionally in a large field of websites, has allowed coverage.

The below book from 1937 on elite dynasties failed to mention The Pilgrims Society; though he could have discovered it by reading listings in "Who's Who" volumes of his time; The Pilgrims Society represents old wealth tracing back to colonial times; the "robber barons" of the 1800s and many others; interrelated genealogies are pervasively extensive---the organization has frightening sponsors---the English Royal family, who are intent on "retaking the colonies" and merging America into the British Commonwealth by non-military means of course---

Ridiculous terms such as “The Deep State” and “The Cabal” and “The Banking Cabal” are excuses for 1) being woefully uninformed; people

using these terms lack access to more specific, focused information; 2) they are too lazy to develop more explicit information; and 3) some do have better information, but refuse to mention it, due to being part of organized cover-up or being too timid to venture into deeper waters. Raving about “The Deep State” gives people an excuse to remain nonspecific though they also prattle away about “globalists” and “Zionists” and the kid’s fable that “the Rothschilds are the planet’s only money powers.” Deep State prattlers can’t even mention such basics as CFR, Trilaterals or Bilderberg. Clive Maund on January 5 stated Israel [controls](#) America. Actually England controls both America and Israel, having created both. Bob Moriarty sees lots of Israeli influence. There certainly is. From reading Bob, he sees little or no British influence. It is **not Israel but England** which has sent Rhodes Scholars back to America to be Presidents, Senators, Congressmen, Governors, university presidents, ambassadors and other posts, indoctrinated into the British Empire schemes stated by Cecil Rhodes, who also envisioned The Pilgrims Society---the Mysterious Metals Manipulators. Only a very few Rhodes Scholars ever rise up into Rhodes top organization, The Pilgrims, which was set up to be “a secret society gradually absorbing the wealth of the world” (Review of Reviews, May 1902, page 557). **England, not Israel,** has dragged America into two World Wars. **England, not Israel,** caused the Great Depression by dumping Indian silver onto world markets, collapsing the value of the Far East’s money, causing failure of American export industries and concomitant idling of millions of workers. **England, not Israel,** launched the League of Nations as an attempt at world government; and England, not Israel, used America to launch the United Nations as an attempt at world government---**ISRAEL WAS NOT INVOLVED,** period! **England, not Israel,** has a

“Commonwealth,” land area which encompasses 11,566,870 square miles (not including sections of Antarctica claimed by Britain, Australia and America) and not including the United States itself, which is still very much a British colony---covertly. Anglicans and Episcopalians are the dominant religious faction in world finance, to the contrary of “Rothschild only” cultists. The dumbed down “Rothschild only” faction has manufactured this as a lazy and lame excuse to be relieved from researching other power groups. A review of a leaked Pilgrims roster from a half century past gives a typical overview of metals management at the very topmost levels. We’ll take an overview of 100 of these members and a sampling of ten members from the London branch. These are the same people who were behind the Coinage Act of 1965 and the London Gold Pool which terminated in spring 1968; their ancestors were behind the first and second United States Banks---forerunners of the Federal Reserve, of which they were also creators. For this reason we’ll examine characters from The Pilgrims NYC 1969 roster, the closest to 1965 I have.

These men were primarily New Yorkers; or resided in Connecticut and New Jersey and had offices in Manhattan; the finance center controlled the Senators and Congressmen who all voted for the Coinage Act of 1965, as another blow against the use of silver as money! They were not at all Jewish, but rather, Episcopalian dominant!

We indeed will see a Rothschild here in part 2 but this idea that no one else is involved and no other families matter comes from low level cheap ignorant barnyard mentalities! One of The Pilgrims NYC 1969 events was listed on page 169 of the short run book, “The Pilgrims of the United States” (Profile Books, London, 2003) ---

*November 5*  
Presentation of the Gold Medal  
and dinner for  
PRINCE PHILIP, DUKE OF EDINBURGH

Philip is a world-famous eugenicist and population reduction advocate known for his he “wants to come back as a deadly virus” (to sharply reduce the number of commoners and serfs) makes you wonder about this Corona virus epidemic. Nearing age 100, Philip, descended from Danish, German and Greek nobility, still [controls](#) over 700 organizations by means of committees who manage them and report to him; though most of this may have fallen to Prince Charles by now, as Philip turns 99 in June 2020. As a top member of the Royals, he’s a sponsor of The Pilgrims Society London and New York. This is a ROYALIST not a ROTHSCHILD organization! Like so many others, I started out believing the Royals are mere figureheads. After all the things I’ve seen, I was forced to 100% reverse my notions. A recent photo of Prince Philip, looking very much the vampire---

"A Secret Society gradually absorbing the wealth of the world."---Last Will & Testament of Cecil Rhodes

A similar problem is people insisting that Goldman Sachs runs the world or nearly so <https://wallstreetonparade.com/2020/01/goldman-sachs-the-vampire-squids-alum-control-two-fed-banks-the-u-s-treasury-the-european-central-bank-and-the-bank-of-england/>

Such articles border on **worthless.** Goldman Sachs is an important Pilgrims Society instrumentality, and that is all. The Pilgrims Society stands at the top, not JP Morgan Chase, Federal Reserve, Bank of England, Barclays, Goldman Sachs or the CIA---all instrumentalities only, and not the SOURCE! The You Tube interview shows and most PM sites have completely ignored this research on The Pilgrims Society. There is no way in hell I could have fabricated what I've presented! Read carefully

line by line including scans to the end and ask yourself could I have fabricated this? How could I insinuate information into books with which I had nothing to do with the printing of and things that happened before I was even crawling?

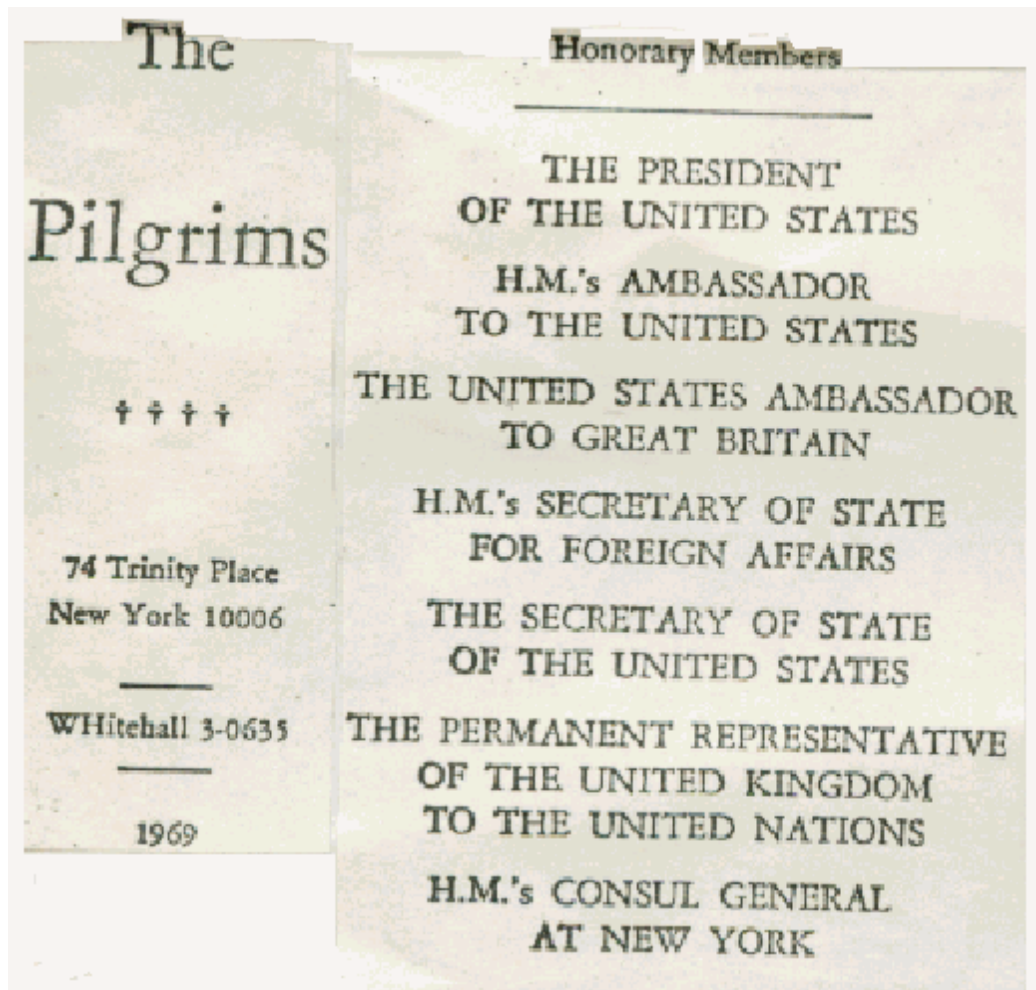

"Their works are in the dark, and they say who seeth us?  
And who knoweth us?" --- Job 21:7

Appearing at 321 Gold recently was this brief item which appeared to be a struggle to allow the lower level Council on Foreign Relations to even

be mentioned; it would break people's jaws, crush their fingers and freeze their feet to have The Pilgrims Society spotlighted!

<https://aheadoftheherd.com/Newsletter/2020/Paper-money-rejection-is-golds-Minsky-Moment.htm>

Who ordered the nationalization of gold in 1933? Who ordered the nationalization of silver in 1934? Why, the USA President did, and the fact that the President is in the vest pocket of these British Empire allied CONSPIRATORS means NOTHING to GATA, Dave Janda, "Watchdog" Greg Hunter, SGT Report, Silver Doctors, Silver Seek et al! Deep State? **HERE it is and nowhere else!** These site operators refuse to help shine the light of exposure onto this organization! They have large audiences

and could get the word out; I stand nothing to gain financially with coverage; and they all steadfastly refuse! ---

These site operators have much larger platforms than mine and could get this information, for which I never charge access, out to the public. Their refusal is textbook absolute.

Just one digression before focusing on the apex of power. Paul Craig Roberts had an opinion piece on Israeli influence in America linked at 321 Gold because **all Bob Moriarty can see is Israeli influence.** British influence going on anywhere? You have just got to be joking!

<https://www.paulcraigroberts.org/2020/01/22/who-rules-america-2/>

This shallow write up by Roberts focused on Israeli influence and again ignored the far transcending British influence. Israel is a creation of the Protestant Anglican British Empire! **PAUL CRAIG ROBERTS, distraction**

**artist par excellence**, held the William E. Simon Chair at the Center for Strategic and International Studies in D.C. Simon was the Pilgrims Society member profiled in "Treasury Official Lies About Gold" released in July 2010 <http://nosilvernationalization.org/107.pdf> IMO Roberts is a Pilgrims Society "plant" flunky and certainly not a member. My intention was to list 100 members of The Pilgrims NYC for 1969 and a sampling of

10 members from the London branch for 1969. On rechecking the tally, I had 104 from NYC and ten from London. It was necessary to divide this into four parts so as to not absorb too much of readers time per installment. The numerous corporate logos are to remind that advertising patronage controls editorial policy of media as much as direct ownership.

The Pilgrims NYC 1969---as our opener---

This is the Aldrich family of George Aldrich (1605-1683) of Massachusetts Bay Colony colonial times. The family of Senator Nelson Aldrich of the Federal Reserve Act of 1913. The Aldriches are not mere “Rothschild stumblebums,” but powers in their own right. The Pilgrims Society is a Royalist, not a Rothschild organization. G.B.E. is Knight Grand Cross Order of British Empire, bestowed by the British sovereign. Notice the linkage to the Winthrop dynasty also of Massachusetts Bay Colony; the Winthrops are another major old-line dynasty of huge importance. The Winthrops had a long history of membership in English Upper crust and had [wealth](#) in lands, textile business and law practice; they were influential in Cambridge University. The original Massachusetts Bay colony families stand behind State Street Corporation of Boston representing over \$31 trillion in assets. No Rothschild is involved! The Aldrich family also has a long history in England, for ex, John Aldrich was a member of Parliament during 1555 to 1572. Three members of this

Aldrich family appear on page 24 of the 1970-1971 "Who's Who in America;" only one mentions his Pilgrims Society activities---notice the name Alden; traces to John Alden who arrived on the Mayflower in AD 1620---the early colonial leaders acquired vast lands which became the basis of modern East coast megabanks---notice their banking connections---

## Adela Investment Company

The Adela Investment Company was a private investment corporation created by multinational companies to promote economic and social development in Latin America and the Caribbean. Adela operated from 1965 to 1980 and was dissolved in 1994. [Wikipedia](#)

Founded in 1918 by the Harkness family (Standard Oil, Pilgrims Society) the Commonwealth Fund is involved in medical sphere and they are vaccine hucksters.

The Union Club NYC dates from 1836---the Aldrich (later of Federal Reserve fame) and [Delano](#) families (opium) were involved in its founding and the design of the building itself---

The Union Club predictably has a big interlock with The Pilgrims---

Charles B. Alexander, Pilgrims Society, was Winthrop's father in law; his story also is incredible to tell; he was a director of International Banking Corporation, Equitable Life, resided in Tuxedo Park NY and had a Paris mansion; Harriet Alexander's mother was a member of the Crocker family prominent in California banking and gold mining; William H. Crocker was a charter Pilgrims member in 1903---Winthrop was president in 1929 of Equitable Trust, which with its partner Chase National Bank, sold Bolshevik Bonds in the 1920s and enabled the Soviet Reds to maintain power in Russia---Equitable later merged into Chase (headed by Albert Wiggin, Pilgrims Society) ---more on Winthrop---

The Aldriches are related to the Dudleys, another old English family of significance, and we recently had a Dudley as head of the Federal Reserve Bank of New York. That particular Dudley was not a Pilgrims member as of most recent info, but the rosters don't show who's on the waiting list for membership.

John Astor descended from John Jacob Astor (1763-1848) known as “Landlord of New York,” Astor was in his time America’s wealthiest man; he was the main power in the second United States Bank, followed by a member of the Du Pont dynasty; Astor family members relocated to England and became leaders of The Pilgrims Society London---in my thinking, **the Astors are among the dozen most important dynasties in this world.** The Astors and Rockefellers have had a long association in Chase National Bank and Rockefeller University. Anaconda Copper--- controlled originally by James B. Haggin, an early Pilgrims member (1907; Haggin's story is fantastic) was still producing a large amount of silver byproduct which went for price capping. The Pan American Society was founded by Pilgrims members for financial subversion south of the USA border; it was highly effective. Brinckerhoff was a member of the anti-silver Economic Club NYC and a director of National City Bank of New York, forerunner of PM antagonistic Citigroup. Clyde E. Weed, Pilgrims 1969 also and then chairman of the executive committee of Anaconda, was at that time president of the Copper Institute.

The Bruce brothers were of an old Maryland family owning much land and agricultural interests who were prosperous enough to move into finance. Yes, they are of the same family line as Robert the Bruce of Scottish fame, whose descendants eventually took part in the British opium "trade" in China. David was Ambassador to France (1949-1952), Undersecretary of State, Ambassador to West Germany (1957-1959), to the United Kingdom (1961-1969) and in the 1960s David was a Pilgrims NYC vice president; USA liaison to People's Republic of China (1973-1974); Ambassador to NATO, North Atlantic Treaty Organization (1974-1976). David married Ailsa Mellon in 1926---daughter of then Treasury Secretary Andrew Mellon (Pilgrims Society); they divorced in 1945. Three days after the divorce David married Evangeline Bell. Wiki states- "Their only daughter, Audrey, and her husband, [Stephen Currier](#), were presumed dead when a plane in which they were flying in the Caribbean disappeared on January 17, 1967, after requesting permission to fly over Culebra, a U. S. Navy installation. No trace of the plane, pilot, or passengers was ever found."

The Spanish word for snake is---Culebra. Wiki adds regarding Bruce's daughter from the second marriage---

"Alexandra died under mysterious circumstances (possibly murder or suicide) in 1975 at age 29 at the Bruce family home in Virginia."

Wiki additionally states of David Bruce---

“During World War II, Bruce headed the Europe branch of the [Office of Strategic Services](#) (OSS), a precursor to the [Central Intelligence Agency](#) (CIA), which was based in London and coordinated espionage activities behind enemy lines for the United States Armed Forces branches. Other OSS functions included the use of propaganda, subversion, and post-war planning.”

“He did not work for a living” we shall read!

Evangeline [Bell](#), Bruce’s second wife, was with the OSS when they met. Due to his top level ambassadorships we do count David Bruce in this list of Mysterious Metals Manipulators as out of view “diplomacy” has played a pivotal role in gold swaps and most everything related to price management. David was at various Bilderberg meetings as Pilgrims Society members are on hand to supervise the decidedly inferior group.

The CIA does not “run America;” The Pilgrims Society runs America; and like the Federal Reserve, Goldman Sachs, JP Morgan Chase, Citigroup et cetera, it is only an important instrumentality of The Pilgrims Society. David Bruce received decorations from the United States, Great Britain, France, Poland, Norway, Denmark and Czechoslovakia; he was an Episcopalian and wore the label “Democrat.” The role of diplomats in precious metals subversion is a field not easy to gather info on but you have to believe the role is huge. “Who’s Who in America” 1970-1971, page 289 shows David Bruce minus the fact that he was a vice president of The Pilgrims at that time, and a Bilderberg attendee---

## David Kirkpatrick Este Bruce

“EACH HONEST CALLING, each walk of life,” James Bryant Conant once wrote, “has its own elite, its own aristocracy, based on excellence of performance.” In the calling of diplomacy, David Bruce, who died Monday morning at the age of 79, was very nearly the embodiment of that aristocracy. He was, as Trollope said of Plantagenet Palliser, “a perfect gentleman.” That is to say that he was, in the strict dictionary sense, “a man of good breeding, education and manners . . . civilized . . . sensitive . . . a man of independent income who does not work for a living.” But that’s only to begin with; it doesn’t really describe the man, and still less his extraordinary career of public service. It is true that David Bruce did not need to work for a living. And so, while he was from time to time a lawyer, a tobacco farmer, a banker and a business broker with eclectic interests (sugar plantations, race tracks, newspapers, parachute-manufacture, oil and a project for de-nicotinizing cigarettes), he worked almost all of his life for his country.

David Bruce authored this 1953 book as a revision of “Revolution to Reconstruction” ---

“Political parties frequently met here to nominate candidates for President, and citizens proudly referred to the place as “the monumental city.” The new club chose as its first president a well-educated lover of horse racing and nephew of the late French emperor, Napoleon Bonaparte. It eventually settled in an imposing house that Robert Mills had designed and that stood on the northeast corner of Franklin and Cathedral streets. Many members lived not far from the club house in the area still known as Mount Vernon Place. After Appomattox, the governors re-opened the club and welcomed a massive influx of new members, who as usual were leaders in Baltimore business and professional life. Many of them helped rebuild and capitalize the southeastern states of the former Confederacy, investing heavily in railroads, manufacturing, mining, and timber. Other members, newcomers to Baltimore, helped to found the Johns Hopkins University, Hospital, and, later, School of Medicine.”

REVISED EDITION

"Probably no business organization has ever been created which has had so rapid and substantial a growth as has the Federal Reserve System, nor has any yet been developed which has so promptly taken its place as a world influence. Its service to our own country and to the world at large, not only in connection with the financing of the war but in facilitating the world's recovery from its devastating effects, will be promoted by a better understanding of its operations and of its purposes. This is the design of the book."

Arthur Frank Burns chaired the Federal Reserve Board (1970 to 1978) succeeding Pilgrims Society member William M. Martin Jr. (1951-1970)

and preceding Pilgrims Society member Paul Volcker at the helm of the Federal Reserve System. Since Volcker no Fed chairman has been identifiable as a member of The Pilgrims, especially not pure flunky shills like Ben Bernanke and Janet Yellen. Burns was Ambassador to West Germany (1981-1985) which very likely had to do with gold matters. Burns was never a power to himself, but he had great power delegated to him by inner circle members of The Pilgrims. He became chairman of the National Bureau for Economic Research. He was the 1959 president of the anti-silver American Economic Association at Vanderbilt University and a member of the cushy Cosmos Club in D.C. and the elite Century Association in New York. Flunky ex-Fed chief, mere figurehead Ben Bernanke was president of the AEA for 2019---it now has 18,000 members including many university professors---ask any of them their thoughts on remonetization of silver---

The 1960 Who's Who, page 419, shows Burns as a director of Nation-Wide Securities, Calvin Bullock Limited and Dividend Shares, all at 1 Wall Street, run by Hugh Bullock, Order of the British Empire, who was president of The Pilgrims New York for 41 years (1955-1996) and was a second-generation member. They also had Burns on the board of Twentieth Century Fund and Mutual Life Insurance.

## Copeland, Lammot duPont

Lammot Du Pont Copeland

Also in the list note silver suppressor Lammot Du Pont Copeland (Du Pont, Silver Users Association, silver stealers), who was decorated by Belgium and France, was a Chemical Bank director; his daughter Louisa married James Biddle, of the same Pilgrims Society family as Nicholas Biddle, head of the second United States Bank on whose board a Du Pont appeared! The Bank required persons wanting note conversion into gold and silver to present notes for redemption **AT THE BRANCH MOST DISTANT FROM THE ISSUING BRANCH!** Copeland was rated the 12<sup>th</sup> wealthiest inheritor in America as of 1957 ("The Rich and the Super Rich," 1969, page 139).

This Du Pont relative, cover man for Time Magazine, November 27, 1964, founded the Population Crisis Committee in 1965, to work with governments to find ways to reduce overpopulation. The Du Pont Company, long nicknamed "merchants of death" for gunpowder and explosives, has facilitated the deaths of tens of millions, and is a major scale groundwater polluter. See if your Congressman or Senator has received virtually bribing gifts from the Du Pont Good Government Fund <http://www.campaignmoney.com/political/committees/dupont-good-government-fund.asp?cycle=08> "Who's Who in America" 1970-1971 page 467 shows---

Heavy hitter! Du Ponts, Biddles, Drexels and other dynasties linkage, the Mayflower, the French Huguenots, enemies of the Pope fits in well with The Pilgrims, sponsored as they are by the English Royals, who broke away from the Pope in AD 1534; trustee University of Pennsylvania; overseer of Harvard University with its anti-precious metals economics

department and yes! Member National Rifle Association most likely for two reasons 1) Du Pont a gunpowder manufacturer and 2) to infiltrate the NRA! **Du Pont a MAJOR member of the Silver Users Association!**

The Du Ponts are far and away the dominant power in Delaware.

*“On issues from [elections](#) to the state’s university, the Du Ponts had ordered editorials and news coverage that suited family members’ political, financial, and personal interests.”*

Guess what! Members of the House and Senate from Delaware voted in favor of the Coinage Act of 1965, so silver users could cart more metal off at theft rates! In 1965 Copeland [cofounded](#) with another Pilgrims member, William Henry Draper Jr. the Population Crisis Committee, once more demonstrating that Pilgrims Society members are Royalist conspirators fully intent on trimming back the middle and poor classes. Draper was a Brigadier [General](#) with links to National City Bank, Bankers Trust and Dillon Read & Company. Lammot Du Pont Copeland’s portrait was painted by Spanish surrealist painter Salvador Dali and he was on

the cover of Time Magazine, November 27, 1964. No mention of his Pilgrims Society subversions, of course---Du Pont has needed silver as catalyst in literally hundreds of processes from paint to synthetic fabrics-

Artworks owned by members of The Pilgrims London and The Pilgrims NYC are of astronomical value, very likely several hundred billion in

original artworks, making high powered investments and fabulous tax write-offs---

The University of Pennsylvania as of [2019](#) has \$14.65 billion endowment--

This 1984 book made no mention of The Pilgrims Society---

For many years the Du Ponts were the dominant holders of General Motors Corporation. The Du Ponts, long known as “Merchants of Death” due to their war industries role, created Agent Orange used in the

Vietnam War and with Dow Chemical, are the top two groundwater polluters in America; now a merged Pilgrims Society colossus. General Thomas Coleman [Du Pont](#) (1863-1930, Pilgrims Society) was the largest subscriber to the Anglo-French War Loan of WW One; his great, great grandfather, Eleuthere Du Pont, was a director of the silver suppressing second United States Bank! Du Pont in French means “The Bridge.” His ancestry traced to a Mayflower passenger in AD 1620---

The Du Ponts due to gunpowder and explosives manufacture have long been nicknamed “Merchants of Death” ---
