Peter Hug spewed out misdirection in a Kitco [interview](#) on March 17, 2020. Hug worked for Nick Deak who had shady [connections](#). A far better view is at <https://www.sprottmoney.com/Blog/bullion-bank-and-central-bank-collusion.html> On March 19, 2020, Bob Moriarty of 321 Gold posted a brief, and childishly simplistic laughingstock [denial](#) that manipulation has just occurred to crash silver. It would win over anyone in special education class. This inadequately brief and intellectually incapacitated "golly gee whiz" article failed to address

**SHORT CONCENTRATION and POSITION LIMITS** which Butler has long been champion of complaining about. Why address any point that shoots your la-la land idea down, Bob? **Powerful foreigners who were torched by concentrated COMEX silver shorts and complicit regulators were painfully aware of the illegal short corner in silver OVER FORTY (40) YEARS AGO BOB!** Nor did Bob address the obvious “rat’s rump on a banana split” interest conflicts of the scandalous staffing shuttle between the CFTC and the bullion banks! But! Bob now confirms himself as eminently acceptable in a “mental health” sense---“mentally healthy” people do not believe that big bankers are out to screw anyone! Even Treasury Secretary Douglas Dillon admitted plans to hold silver low “for many years to come” in The Economist, London, July 13, 1963, page 166. Silver (and gold) **MUST** be suppressed to prevent undue embarrassment to Federal Reserve “money” lest too many start thinking metals should be remonetized as currency! Also the COMEX unstated rule is that big banks can sell short what can’t be delivered, and they **NEVER** have to cover on an upswing! “Allocations” (rationing) of silver eagles has taken place for years, and would not have if a free market price for mined silver had prevailed! **Has Bob Moriarty been paid off, or is he just genetically missing the specific brain cells to grasp these matters? Does Mister “BM” know anything about the “Crime of 73?” Was it caused by a conspiracy, in the opinion of the millions of people whose wealth was destroyed by a tiny handful of gold magnates and their monometallic “gold only” subordinates in the United States Congress?**

Who is a bigger wheel, Eric Sprott or Bob Moriarty? Eric Sprott, very likely. Whose views does Eric Sprott routinely headline? Craig Hemke. Does Hemke conclude precious metals are manipulated? Yes he **DOES!**

Charles Savoie asserts that all PM is controlled by "The Pilgrim Society" Its certainly an interesting read! - Quote:

"The Pilgrim Society founded on July 24, 1902, with thousands of interlocking connections, is closer to the inner circle of the New World Order conspiracy than the CFR. The Pilgrim Society, initially funded by the Rhodes Foundation, is the most secretive and certainly the most dangerous such organization, and is in control of the world's money supply. The Pilgrim Society has controlled every president since Theodore Roosevelt."

On Friday the 13<sup>th</sup>, March 2020, and extending into March 16 Monday, we witnessed the Money Power lashing out against the monetary metals with a monstrous berserk ferocity that would make bloodthirsty pillaging Mongol horsemen seem like meek "castrati" choirboys.

**“The most powerful international society on earth, the “Pilgrims,” is so wrapped in silence that few Americans know even of its existence since 1903.”** ---E.C. Knuth, “The Empire of The City: World Superstate” (Milwaukee, 1946), page 9.

**“This is the most powerful and secretive group in the world bar none”**  
---my great European colleague Joel Van Der Reijden

The following is from the Christian Science Monitor, December 2, 1964, reprinted in the House version of the Congressional Record on January 5, 1965, page 110--- Robert V. Roosa was a very key player with his boss at Treasury, Douglas Dillon, in eliminating silver coinage as of 1965--- both members of The Pilgrims Society---this information has **NO VALUE WHATSOEVER** to the “alt news” and “sound money sources” I am about to mention---

**“Much of the job of neutralizing dollars abroad to prevent a run on the U.S. gold stock was carried out by Mr. Roosa in cooperation with the Federal Reserve (note---chaired by Pilgrims Society member William M. Martin Jr.) HE NEGOTIATED FOR THE UNITED STATES IN SETTING UP THE LONDON GOLD POOL WHICH DAMPENED DOWN GOLD PRICE SPECULATION.”**

## The Pilgrims

Members of The Pilgrims Society London drove Chunilal Saraiya to suicide by bullet in November 1913 after they broke his Indian Specie Bank and plundered his 803 tons of silver. The Hunt brothers were not the first victim of this secret society which dragged the planet to fiat currencies. Two generations earlier, The Crime of 1873 transpired and it

remains the most severe blow ever inflicted on silver holders, even more so than what the British did to silver to cause the Great Depression. The ruination of the Hunt brothers was a squirt gun compared to those howitzer events.

**In "The Fountainhead" (1943) Ayn Rand spoke of "the glaringly evident which everybody has decided not to see."**

**"I have seen the wicked in great power"**

**Psalm 37:35**

In a 1913 [book](#) titled "The New Freedom," Woodrow Wilson reflected with an ominous and foreboding note---

**"Since I entered politics, I have chiefly had men's views confided to me privately. Some of the biggest men in the United States, in the field of commerce and manufacture, are afraid of somebody, are afraid of something. They know that there is a power somewhere so organized, so subtle, so watchful, so interlocked, so complete, so pervasive, that they had better not speak above their breath when they speak in condemnation of it."**

There can be no other organization Wilson could possibly have been cryptically alluding to other than The Pilgrims Society in New York; and we will lay bare 100 plus of these Worthy Gentlemen from The Pilgrims 1969 leaked roster. I want the unbiased readers to evaluate the details in this MMMM series and then ask---why the stonewall refusal of people like Mike Maloney and Chris Powell to allow any mention of this organization? Silver Doctors and Greg Hunter?

The final installment in this series of four to six parts (number to be determined) contains a postscript. If you feel you don't have time for the series, take time for the postscript at the series conclusion; it's an attempt to rectify an injustice done to dozens of well-known names in the silver sphere. The introductory pages of each installment are

repeated each time for benefit of those who read only one presentation; so, immediately skip the intro on successive presentations if you read this opener. However! Skimming over the presentations will not allow justice to be done to this historical overview I am providing to metals longs---at no charge. Giving a good overview of the metals suppressing community can't be done with real brevity---I have no "Jesus wept" text which can enlighten in two words.

Some details are definitely more relevant than others; the other details are for objective of demonstrating the web of influence of these people; and these other details are therefore ramifications, not "tangents" as Chris Powell misstated <http://www.gata.org/node/7424> on May 16, 2009---

"Another longtime writer about the silver market, Charles Savoie, had sought some years earlier to call attention to Johnson's market-rigging pledge. Though it includes much more politics than GATA's charter allows and flies off on dozens of conspiratorial tangents unnecessary to GATA's objectives, Savoie's work deserves acknowledgement, for its own sake and for establishing two bigger points. The first is simply biblical: "The thing that hath been, it is that which shall be; and that which is done is that which shall be done; and there is nothing new under the sun." Or as Harry Truman said more plainly, "The only thing new is the history you don't know."

"That is, the proofs of the gold and silver price suppression scheme are so numerous and constitute such a vast public record that even some conscientious students of the scheme can be surprised now and then. GATA would speak for this class too, giving full credit to those who, like Savoie and Lips and so many others, helped to pass the secret knowledge along. But if this knowledge is to prevail and save the world from the ever-more outrageous depredations of the financial class, it can be

secret no longer and no one can be allowed to get proprietary about it. It simply has to be shared -- no, proclaimed -- with credit if possible, but without credit is fine too.”

Without credit is fine too? The community leaders won't even link this research. Let the rank and file decide if they want to read these presentations. Instead, the alt news and hard money leaders blacklist this research as relentlessly as regular media. Special thanks to Silver Market News Online which very exceptionally in a large field of websites, has allowed coverage.

The below book from 1937 on elite dynasties failed to mention The Pilgrims Society; though he could have discovered it by reading listings in “Who's Who” volumes of his time; The Pilgrims Society represents old wealth tracing back to colonial times; the “robber barons” of the 1800s and many others; interrelated genealogies are pervasively extensive---the organization has frightening sponsors---the English Royal family, who are intent on “retaking the colonies” and merging America into the British Commonwealth by non-military means of course---

Ridiculous terms such as "The Deep State" and "The Cabal" and "The Banking Cabal" are excuses for 1) being woefully uninformed; people using these terms lack access to more specific, focused information; 2)

they are too lazy to develop more explicit information; and 3) some do have better information, but refuse to mention it, due to being part of organized cover-up or being too timid to venture into deeper waters. Raving about “The Deep State” gives people an excuse to remain nonspecific though they also prattle away about “globalists” and “Zionists” and the kid’s fable that “the Rothschilds are the planet’s only money powers.” Deep State prattlers can’t even mention such basics as CFR, Trilaterals or Bilderberg. Clive Maund on January 5 stated Israel [controls](#) America. Actually England controls both America and Israel, having created both. Bob Moriarty sees lots of Israeli influence. There certainly is. From reading Bob, he sees little or no British influence. It is **not Israel but England** which has sent Rhodes Scholars back to America to be Presidents, Senators, Congressmen, Governors, university presidents, ambassadors and other posts, indoctrinated into the British Empire schemes stated by Cecil Rhodes, who also envisioned The Pilgrims Society---the Mysterious Metals Manipulators. Only a very few Rhodes Scholars ever rise up into Rhodes top organization, The Pilgrims, which was set up to be “a secret society gradually absorbing the wealth of the world” (Review of Reviews, May 1902, page 557). **England, not Israel,** has dragged America into two World Wars. **England, not Israel,** caused the Great Depression by dumping Indian silver onto world markets, collapsing the value of the Far East’s money, causing failure of American export industries and concomitant idling of millions of workers. **England, not Israel,** launched the League of Nations as an attempt at world government; and England, not Israel, used America to launch the United Nations as an attempt at world government---**ISRAEL WAS NOT INVOLVED,** period! **England, not Israel,** has a “Commonwealth,” land area which encompasses 11,566,870 square miles (not including sections of Antarctica claimed by Britain, Australia and America) and not including the United States itself, which is still very

much a British colony---covertly. Anglicans and Episcopalians are the dominant religious faction in world finance, to the contrary of "Rothschild only" cultists. The dumbed down "Rothschild only" faction has manufactured this as a lazy and lame excuse to be relieved from researching other power groups. A review of a leaked Pilgrims roster from a half century past gives a typical overview of metals management at the very topmost levels. We'll take an overview of 100 of these members and a sampling of ten members from the London branch. These are the same people who were behind the Coinage Act of 1965 and the London Gold Pool which terminated in spring 1968; their ancestors were behind the first and second United States Banks---forerunners of the Federal Reserve, of which they were also creators. For this reason we'll examine characters from The Pilgrims NYC 1969 roster, the closest to 1965 I have.

These men were primarily New Yorkers; or resided in Connecticut and New Jersey and had offices in Manhattan; the finance center controlled the Senators and Congressmen who all voted for the Coinage Act of 1965, as another blow against the use of silver as money! They were not at all Jewish, but rather, Episcopalian dominant!

We indeed will see a Rothschild here in part 2 but this idea that no one else is involved and no other families matter comes from low level cheap ignorant barnyard mentalities! One of The Pilgrims NYC 1969 events was listed on page 169 of the short run book, "The Pilgrims of the United States" (Profile Books, London, 2003) ---

Presentation of the Gold Medal

and dinner for

PRINCE PHILIP, DUKE OF EDINBURGH

Philip is a world-famous eugenicist and population reduction advocate known for his he “wants to come back as a deadly virus” (to sharply reduce the number of commoners and serfs) makes you wonder about this Corona virus epidemic. Nearing age 100, Philip, descended from Danish, German and Greek nobility, still [controls](#) over 700 organizations by means of committees who manage them and report to him; though most of this may have fallen to Prince Charles by now, as Philip turns 99 in June 2020. As a top member of the Royals, he’s a sponsor of The Pilgrims Society London and New York. This is a ROYALIST not a ROTHSCHILD organization! Like so many others, I started out believing the Royals are mere figureheads. After all the things I’ve seen, I was forced to 100% reverse my notions. A recent photo of Prince Philip, looking very much the vampire---

"A Secret Society gradually absorbing the wealth of the world."---Last Will & Testament of Cecil Rhodes

A similar problem is people insisting that Goldman Sachs runs the world or nearly so <https://wallstreetonparade.com/2020/01/goldman-sachs-the-vampire-squids-alum-control-two-fed-banks-the-u-s-treasury-the-european-central-bank-and-the-bank-of-england/>

Such articles border on **worthless**. Goldman Sachs is an important Pilgrims Society instrumentality, and that is all. The Pilgrims Society stands at the top, not JP Morgan Chase, Federal Reserve, Bank of England, Barclays, Goldman Sachs or the CIA---all instrumentalities only, and not the SOURCE! The You Tube interview shows and most PM sites have completely ignored this research on The Pilgrims Society. There is no way in hell I could have fabricated what I've presented! Read carefully line by line including scans to the end and ask yourself could I have

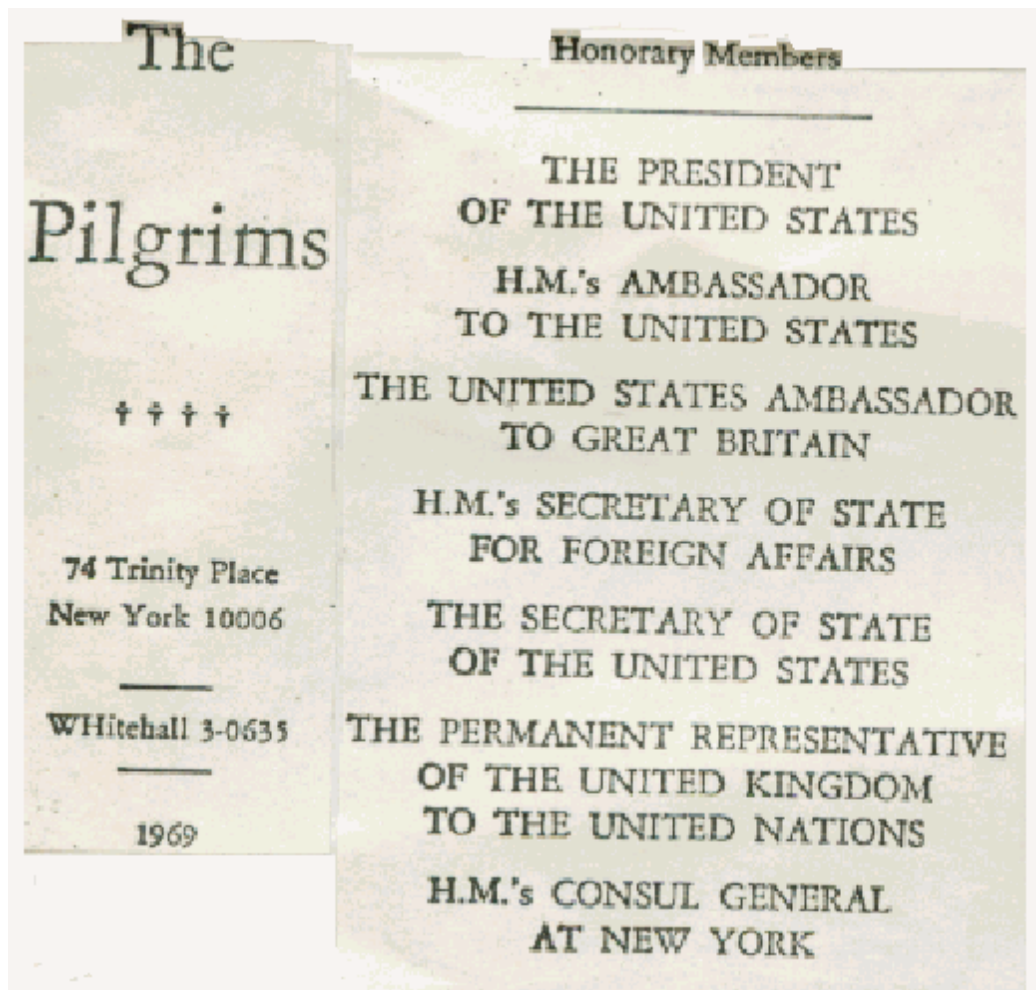

fabricated this? How could I insinuate information into books with which I had nothing to do with the printing of and things that happened before I was even crawling?

**"Their works are in the dark, and they say who seeth us?  
And who knoweth us?" --- Job 21:7**

Appearing at 321 Gold recently was this brief item which appeared to be a struggle to allow the lower level Council on Foreign Relations to even

be mentioned; it would break people's jaws, crush their fingers and freeze their feet to have The Pilgrims Society spotlighted!  
<https://aheadoftheherd.com/Newsletter/2020/Paper-money-rejection-is-golds-Minsky-Moment.htm>

Who ordered the nationalization of gold in 1933? Who ordered the nationalization of silver in 1934? Why, the USA President did, and the fact that the President is in the vest pocket of these British Empire allied CONSPIRATORS means NOTHING to GATA, Dave Janda, "Watchdog" Greg Hunter, SGT Report, Silver Doctors, Silver Seek et al! Deep State? **HERE it is and nowhere else!** These site operators refuse to help shine the light of exposure onto this organization! They have large audiences

and could get the word out; I stand nothing to gain financially with coverage; and they all steadfastly refuse! ---

These site operators have much larger platforms than mine and could get this information, for which I never charge access, out to the public. Their refusal is textbook absolute.

Just one digression before focusing on the apex of power. Paul Craig Roberts had an opinion piece on Israeli influence in America linked at 321 Gold because **all Bob Moriarty can see is Israeli influence.** British influence going on anywhere? You have just got to be joking! <https://www.paulcraigroberts.org/2020/01/22/who-rules-america-2/> This shallow write up by Roberts focused on Israeli influence and again ignored the far transcending British influence. Israel is a creation of the Protestant Anglican British Empire! **PAUL CRAIG ROBERTS, distraction artist par excellence**, held the William E. Simon Chair at the Center for Strategic and International Studies in D.C. Simon was the Pilgrims Society member profiled in "Treasury Official Lies About Gold" released in July 2010 <http://nosilvernationalization.org/107.pdf> IMO Roberts is a Pilgrims Society "plant" flunky and certainly not a member. My intention was to list 100 members of The Pilgrims NYC for 1969 and a sampling of 10 members from the London branch for 1969. On rechecking the tally,

I had 107 from NYC and ten from London. It was necessary to divide this into four parts so as to not absorb too much of readers time per installment. The numerous corporate logos are to remind that advertising patronage controls editorial policy of media as much as direct ownership.

Herewith ten Pilgrims members from the London roster 1969---and info from "The International Year Book and Statesmen's Who's Who" (Burke's Peerage, London, 1969).

"In July 1974, the [Investors Chronicle](#) published an exposé on Lowson, in which it revealed **his financial empire was a "tangle of cross shareholdings, based on some 100 trading and industrial companies throughout the world, owned and controlled, at the end, through 14 often interrelated investment trusts."**

Lowson married Ann McPherson, daughter of the first Baron Strathcarron (Pilgrims Society), who was British undersecretary of State for War then Chief Minister for Ireland. His daughter Gay married the 15<sup>th</sup> Earl of Kinnoull and became the Countess of Kinnoull.

## SIR DENYS LOWSON, BRITISH FINANCIER - The New York ...

Sep 12, 1975 - 11—**Sir Denys Lowson**, a former Lord Mayor of London and one of the richest and most controversial financiers in Britain, died last night.

The Google Books intro to the next reference follows---

"The region studied here is characterized by stark incongruity--the co-existence of massive natural wealth (coal and land) with pervasive human poverty attended by high unemployment, limited education, malnutrition, and the prevalent hazards of mining coal: black lung, dismemberment, death, and ecological ruin. This has been the region's status quo under the decades of domination by a British company and its absentee owners."

Page 238 of "Power and Powerlessness---Quiescence and Rebellion in an Appalachian Valley" (1982, University of Illinois Press) by John Gaventa-

--

From his Gresham Street office, he presided over a vast financial maze, termed by *The Guardian* as 'the most complicated of the City's international empires'.<sup>11</sup> (see Figure 9.1). He sat on the boards of some ninety companies, usually as chairman and often in the company of his son, **Ian Patrick Lawson**, and his nephew, D. A. Revell Smith. Through his empire, he controlled millions of pounds of investments, many in unit trusts or investment funds, which in turn controlled interests across the world—steamships on the Great Lakes, railroads in Chile, Costa Rica and Canada, bauxite in Ghana, agriculture in Australia, trading companies in the Far East, helicopters in Thailand, resort developments in Florida and hotel catering services in Britain—to name but a few. Among the smaller and least valuable of his concerns was the American Association, Ltd., with its 65,000 acres of coal and mineral land, the Holiday Inn, and the coal camp housing in and around the Clear Fork Valley.

Page 242 excerpt---

*The Guardian* would later say, 'If seven men with computers studied the **Lowson** empire for half a year they would probably not disentangle the network . . . It is like a gigantic molecule whose characteristics depend not just upon its general shape but on the precise relationship of one part with another.'<sup>19</sup>

The experience of this author on behalf of the Clear Fork group indicates much the same. Though a director of the American Association, Ltd. was later to reveal that **Lowson** and his family owned about 70 per cent of the corporation's stock, extensive use of available public information in the United States, Britain and Canada could not have discovered this. In the United States, state laws in neither Tennessee nor Kentucky require full disclosure of corporate ownership. Stronger federal regulations administered under the Securities Exchange Commission do not apply to companies with under 500 shareholders.

This operation [owned](#) 50,000 acres in Tennessee and Kentucky and was “suspected of not paying property taxes.”

No mention in the above book about The Pilgrims Society; most likely the author never heard of it and had he heard of it, may have reckoned it to be just another uptown London elite club. Lawson officiating at a City of London (finance district) function---

*River Thames Ceremonial Journey by Lord Mayor*

From *The Times* of April 26, 1951.

Yesterday the Lord Mayor, Alderman Denys Lawson, made a ceremonial journey by water from Old Swan Pier, London Bridge, to Charing Cross Pier. There he opened the festival river services by taking the first ticket.

There can have been few similar progresses by a Lord Mayor on the Thames since the Lord Mayor's Show was last water-borne in 1856, after having been a river spectacle from about 1500. Wearing his state robes of black and gold and three-cornered hat, Alderman Lawson was accompanied in the launch *Everest* by the Sheriffs and attended by his sword-bearer, his serjeant-at-arms, and the City Marshal.

From one of the launches the orchestra of the Royal Amateur Orchestral Society played Handel's *Water Music*. It was made more picturesque by the Lord Mayor's escort of Doggett's men, 16 of them, in their coats and skull-caps of scarlet and badges as big as soup plates on the left shoulder.

## NEWS-EXAMINER

### ARRIVES FROM LONDON TO REVIEW MINING OPERATIONS

Sir Denys Lawson, former Lord Mayor of London, and a member of the board of directors of Mountain Copper Company Ltd., co-owner with Stauffer Chemical company of the San Francisco Chemical company, arrived here Wednesday for a three-day review of the local company's phosphate mining operations in this tri-state area. Sir Denys was flown to Montpelier from San Francisco, where he was joined by D. L. King, general manager of the San Francisco Chemical company, in the mining firm's chartered Cessna 310.

Sir Denys is making an inspection of investments in the United States and Canada. He and Mr. King will leave Friday for Redding, California to in-

spect Shasta county operations  
of the Mountain Copper Com-  
pany, and from there continue to  
Vancouver, B. C.

From The San Francisco Call, September 29, 1898, page 8---

## MOUNTAIN COPPER COMPANY'S PROJECTS

REDDING, Sept. 28.—An important enlargement of the scope of operations of the Mountain Copper Company at Keswick and Iron Mountain is now under way. An order has been placed with the Terry Lumber Company for 1,500,000 feet of lumber. The bunk and boardline house capacity of the company is being enlarged so as to accommodate from 200 to 300 more men, which will bring the list of employes up to 2000 men.

The company's railroad will be extended seven miles, so as to take in some rich copper deposits lately discovered on the corporation's patented land. Ground is being cleared for the construction of several additional smelters, made necessary by an increased ore output.

The company's refinery is located in New Jersey, and as the refined product is marketed almost wholly in the Eastern States there is no probability of a removal of the plant to Keswick, at least in the near future. When the markets of the Orient shall take the copper products of Shasta County the Mountain Copper Company announces it will erect near Redding the largest copper refinery in the world. Sixty-six thousand pounds sterling were distributed in dividends to American and English stockholders of the Mountain Copper Company for the first year of its operation.

Among the hard inner core members of The Pilgrims Society have included personages such as Edmund L. De Rothschild, 1916-2009, who made over 400 transatlantic/transpacific flights in building up Rothschild interests in British Newfoundland Corporation (Brinco Ltd.) and their Japanese holdings, acquired Mr. Marcus Agius as a son in law; Agius became head of the entire Barclay's Banking empire of 147,000 worldwide employees with its silver ETF holdings! In 2009 Barclays Global Investors and Blackstone Group merged to become Black Rock, founded by Pilgrims Society member Peter G. Peterson, top

lieutenant of Pilgrims Society member David Rockefeller. The SLV silver ETF remains under control of The Society. Agius currently chairs the British Bankers Association. Rothschild of the centuries old family of financiers of governments and known to be among those back of the first and second United States Banks (also Stephen Girard, John Jacob Astor and the Du Ponts) and introduced "The Rothschild Plan," an attack against silver to enhance the value of their gold (New York Times, December 6, 1892, page 5) at the International Monetary Conference in Brussels, Belgium---

Sucking silver out of China, pushing opium over there,

We're the world's bankers---you're in our cross-hair!

“History of the Great American Fortunes” 1909 (page 556 tells us) ---

“The Rothschilds long had a powerful influence in dictating American financial laws.”

[This linked article](#) from June 24, 1905, mentions an earlier Lord Rothschild of The Pilgrims of Great Britain and the American Ambassador.

Peter John Charles Mosse, Pilgrims Society, was with Rothschild interests, 1971-1976 and 1983-1990 and a director of the Gold Institute, 1985-1990 and the Silver Institute, 1989-1990. The Independent (U.K.), April 16, 2004, decisively asserted this family remains the world’s wealthiest; proof is subjective. No Rothschild has held membership in The Pilgrims since the 1974 roster; 1975 through 1977 are not sourced; 1978 doesn’t show any Rothschilds. In my view, the significance of this is that The Pilgrims, being a Royalist secret society, and the Royals run the Anglican Church of England---and the Rothschilds have not converted---means they are allowed only proxies including Douglas Wu (Pilgrims NYC 2014), Lord Lamont of Lerwick (Pilgrims London 2014) and a Rothschild contact, Howland Donaldson Murphy of Brittany Capital in the 666 Fifth Avenue Building NYC (2014 roster).

Footnote on this Rothschild---the last Pilgrims roster he was listed in is 1974---rosters 1978; 1980; 1986; 1990; 1995; 2002 don’t show him. My speculation---because he “failed” to convert to the Royal family’s church, the Protestant Anglican Church of England. His son in law, Marcus Agius (sounds Roman, huh?) was chairman of Barclays Bank some years ago; Edward Agius was in an early Pilgrims London roster.

## **POSTSCRIPT**

Ed Steer [delivered](#) a very good speech at a conference. He's like so many others---doesn't want to hear anything about a single apex membership organization tying together the top precious metals managing shorts. For Steer to have mentioned "Pilgrims Society" or Charlie Savoie's research, would have been as extreme to him as coming onto the speaking platform entirely naked. This material has been deemed taboo and placed under an "Iron Curtain" of near total blacklisting by your "good friends" in the PM long camp. I submit that a distinct variety of cowardice lies at the heart of this refusal by PM long figures to allow any mention. The research is very heavily cross-referenced and documented, and it's far too obvious that coincidence is at work that so many top metals antagonists for generations have been members!

According to Ed Steer, Ted Butler must have written and presented “Mysterious Metals Manipulators” to readers, since as Steer vehemently insists, “EVERYTHING ABOUT SILVER AND GOLD HAS GONE THROUGH HIM (Butler) FIRST.”

<http://news.goldseek.com/GoldSeek/1579461211.php>

January 19, 2020 by Ed Steer on Ted Butler---

Everything I learned about the precious metals I learned from him. So did every other precious metal commentator...whether they will admit it or not. Everything about silver and gold has gone through him first.

“Everything about silver and gold has gone through him (Butler) first” and all of us have learned “everything about the precious metals” from Ted Butler; Robert Quartermain, Ross Beaty and other mining execs “learned all they know about silver from Ted Butler” and the professors at the mining schools these men studied under “learned all they knew from Ted Butler” and Jerome Smith, who got the Dallas Hunt brothers interested in silver, also “learned all he knew from Ted Butler” and Paul Sarnoff of The Metals Consultancy “learned all he knew from Ted Butler” and William Jennings Bryan the great silver money populist of the 1890s “learned all he knew from Ted Butler” so we must revise history so Ted can get credit for so many precious metals aspects---1) the fact that PM has been used as money for thousands of years---credit Ted Butler ONLY; 2) developing the Comstock Lode in Nevada---credit goes to Ted Butler ONLY; 3) developing the Homestake Gold Mine in South Dakota---credit goes to Ted Butler ONLY; 4) development of hundreds of gold and silver mines all over Mexico and Peru dating back into the distant 1500s---credit goes to Ted Butler ONLY; 5) the [Pittman](#) Act of 1918 compelling the Treasury to buy around 200 million ounces of silver from Nevada and other miners---credit goes to Ted Butler ONLY---6) Franklin Sanders has

made good reference history on metals---he can't get any credit---credit for Sanders work goes to Ted Butler ONLY---7) It was Ted Butler then, not Nelson and Herbert Hunt, who installed Michael Boswell at the helm of Sunshine Mining Company in 1977; 8) Ted Butler installed Norton Waltuch at Conti Commodity Services as the late 1970s silver bull market was heating up; 9) Ted Butler enabled Armand Hammer and Occidental Petroleum to make \$116 million going short silver in 1980; 10) Ted Butler is responsible for the "Prospector" series of Engelhard one ounce silver rounds; (we could go on and on for weeks)---"Everything about silver and gold has gone through him (Ted Butler) FIRST," according to this simpering, sniveling sycophant archetype of a fawning submissive yes man Ed Steer. **I am not the only one who should WINCE at these preposterously glittering, absurdly overblown flattering credits Ed Steer gives to Ted Butler---while Butler has never come close to making any such overbloated claims.** He has done his part but no starry-eyed admirer like a teenage girl howling over Elvis Presley can attribute credit to him for everyone else's work, damn it!

**"EVERYTHING ABOUT SILVER AND GOLD HAS GONE THROUGH TED BUTLER FIRST."**

Ted can take credit for writing about silver **starting in 1997** but many others wrote about it MUCH EARLIER and very likely he learned a great deal from OTHERS. Ted Butler can take credit for creating a public record of warnings and admonitions to government regulators, and for explaining the COT reports very well; for being "up" on AIG, Bear Stearns and JP Morgan CHASE (don't leave out the CHASE part for God's sakes) and a couple of other things, but Ed Steer slapped everyone else across the face by denying their contributions. Compare Ted's writings on the HISTORY of silver to MINE! I have the Pacific Ocean; Ted has an eyedropper on the subject. "We mined billions of ounces of silver" was one of Butler's history lessons! ---

## Ted Butler Commentary – Investment Rarities Incorporated

Jul 17, 2018 - We mined billions of ounces of silver throughout history.

I am not faulting Butler for not specializing in metals history, who can specialize in everything about silver? Butler can't! No one can! Denying the important contributions of so many others is to take a popularity craze to extreme irrationality. Ed Steer disrespectfully slapped dozens of faces making that wildly overblown remark! I refuse to be drafted or shanghaied into this deification cult about Ted that Ed Steer is shamelessly sponsoring. Butler has never exhibited any grasp that the reason for price capping silver is to defend the Federal Reserve dollar; to maintain its perception as money and that silver is not; and to block the return of silver as money. Charlie Savoie brought The Pilgrims Society to light for the metals long community---not anyone else. Since I have no subscription to sell, I'd appreciate a modicum of recognition. However, nearly all metals sites deem this work as "tacenda" (to be passed over in silence). Ted had no role in my presentations on silver history and I object to Ed Steer giving Ted Butler blanket credit for everyone else's work! I am not "attacking Ted Butler," I am firing back at this absurd horn honking galactic claim Ed Steer so brazenly made about Ted. Up till around 2013 I regularly had email correspondence from Steer and Butler. I am not "campaigning against Ted Butler," but protesting this twisted absurd warped molded over claim of Ed Steer for one man, denying everyone else's contributions. I am one of two silver longs to have ever been mentioned by the Silver Users Association---Ted Butler is the other. So the community leaders give Ted limitless linkage and mine hovers near zero due to their ABJECT COWARDICE to recognize The Pilgrims Society as the source of monetary distortion.

In late February 2020 Butler had a magnificently superb public offering which I upvoted as a “5” <http://silverseek.com/commentary/bear-stearns-d%C3%A9j%C3%A0-vu-17859>

However, Ed Steer is carrying on about Butler like Butler is the Messiah and Ed’s role is that of John the Baptist. Not much of an exaggeration either.

I notice Ted Butler interviewed on Reluctant Preppers and other You Tube channels, and his paid newsletter subscription is boosted to audiences. **Will Ted Butler ADMIT that he pays these interviewers for these obvious business promotional services?** He’d have to break ranks with dozens of interviewers and guests! The interviewers won’t admit that “donations” from channel subscribers **ARE NOT** their sole income! If they admit that guests are paying to be on, “donations” dry up! Misleading the audiences to get money is ILLEGAL!

False pretenses offenses on the part of interviewers to “support the channel” are rampant for purposes of getting “donations,” and regulators have scant interest in forcing disclosure. I was banned from You Tube due to my remarks on this matter of interviewers and guests all denying these are entirely advertorials, infomercials---paid sessions. Banned! **BUT YOU TUBE NEVER OFFERED TO FILE SUIT AGAINST ME NOR HAS ANY “INTERVIEW” HOST EITHER!** I get sued, I get DISCOVERY rights including subpoena of bank and delivery records! Will Ed Steer admit these interviews Ted and he gets are sales promotions for paid

subscriptions? This is so immoral of the metals and alt news community to refuse to admit that guests are paying interviewers for these glaringly obvious business promotions! Sell and market whatever you want, don't deny you're paying interviewers to have your businesses boosted!

Done Again German Kaiser ("Dunagan Kaiser") of RP channel ONLY interviews sellers like David Morgan---free knowledge is taboo. This notice should appear with every You Tube "interview" in which the guest is selling something---that it is not shows the rampant absence of integrity. Precious metals community members acting with DISHONESTY! "Everyone is doing it" doesn't make it OK!

**THIS IS A PAID  
INFOMERCIAL**

Morgan gets backlash at Silver Doctors; regardless he's in their favorites list, while on his You Tube channel, comments are disabled. "Let My Passion Create Your Wealth" he drawls, like a reeking televangelist.

DM issued that prediction in September 2012. As of Thursday, March 12, 2020, silver crashed to \$15.52 and as of 2:06 CST I see this at 321 Gold---none of the "leaders" of the PM long community cares to hold him to task; nor that Chris Vermuelen predicted in June 2019 that gold might reach \$3750 by year end 2019---they say these things as mercenaries to reel in paid newsletter subscriptions---WRONG AGAIN DAVE---silver was driven lower to the \$11.60 range---

Elgin Groseclose (1899-1973) advocated continuing the use of silver coins by having dimes reckoned as twenty cents; quarters reckoned as fifty cents; and half dollars reckoned as one dollar---the suggestion was totally trashed.

“CAUGHT IN A SQUEEZE OF PRICE CEILINGS AND STEADILY RISING MINING AND LABOR COSTS, MINING OF THE PRECIOUS METALS HAS BECOME INCREASINGLY UNPROFITABLE, AND MINE AFTER MINE IS BEING CLOSED DOWN OR ABANDONED OUTRIGHT.” ---Elgin Groseclose, Mining Congress Journal, February 1961, page 107.

Groseclose was appointed Treasurer of Iran in 1943! He argued for a silver monetary standard. According to this obsequious, toadying, fawning simperer Ed Steer singing a wildly enthusiastic dithyramb of praise to one man and accompanied by bejeweled slave maidens chanting hosannas, we MUST credit Ted Butler for everyone else’s work, including presumably also, General and President Andrew Jackson, who died in 1845! A better hard money man this world has never seen than Jackson. So “Bum” STEER---a fitting name then.

I ask the reader to review the archives at No Silver Nationalization and see for yourself what an overblown claim Ed Steer made for Ted Butler--acting as if just no information whatsoever at all on silver has been supplied by anyone on earth besides Butler. Butler never made any such ostentatious claim and it is a ridiculous claim. I have over three million

words of free info on silver history and according to Ed Steer, **someone else must get credit for it!**

Some of you were around when the new cupronickel clad coins arrived on the scene in 1965. I remember that arrival as I was at a (which do you prefer) laundromat or washateria with an adult neighbor who thought the new orange-edge coins were cool, trendy and stylish. I however reacted with horror. I used to help my older brother count silver coins he received in payment for his newspaper route and that's what I was used to seeing—silver dimes, halves and quarters. I fished out a mint error cent out of his vinyl zipper bank bag and sold it to a dealer for \$5.00. The laundromat scene made me freak out, and I was barely 11. Just about everyone reacts to social change with alarm; things which we look back on and realize there was no need to get flustered because harm wasn't done. But not in this case! ## Silver - Prospects and Perspectives Overview

Silver, the metal, has come a long way as a medium of exchange. It is an indispensable metal in today's information age having a long and abounding history. Mankind's timeless fascination with silver began more than 6,000 years ago. The usage of silver coins can be traced back to the Eastern Mediterranean region during 550 BC. As early as 700 BC, the Mesopotamian merchants stepped further and used silver as a medium of exchange. Later, many other civilizations came to depend on the inherent value of silver as a trading metal. Rome adopted silver as part of its standard coins and that triggered silver to become a medium of exchange for merchants throughout the world. Until the termination of the Bretton Woods Gold Standard in the early 1970s, the international community used gold and silver to back their currencies. However, going by the white metal's abundant availability and lower cost in mining when compared to gold, it has always been the metal of everyday business. .

### **THE SILVER SOLUTION** **by Stephen Kovaka** June 24, 2005

In my previous article, [The Silver Conundrum](#), I argued that the current depressed price of silver is essentially a political artifact with two interlocking purposes: 1) Maintain confidence in fiat money by depressing the prices of gold and silver; 2) Discourage any return to commodity money by liquidating large publicly owned silver stocks. It is political, because government was necessary to provide the silver at a low price and to provide cover and credibility to the price-fixing mechanism at the CRIMEX (as the New York bucket shop is affectionately known). This seems self-evident to me, but if you want to know more, I am pleased to refer you to the writings of Charles Savoie at David Morgan's [Silver Investor](#) website, where you can drink from a firehose of factual support for this opinion.

### **Nine Billion Ounces**

(Partial reprint of an Article written by Charles Savoie, Silver Investor)

“How can anyone talk about impending shortages of the white metal when such enormous supplies as we have just mentioned are available?”

Apparently there has been a trend for fewer major financial institutions to be big silver shorts. What silver was paper money mob member Lehman Brothers referring to in 1988? Amalgam fillings in teeth of deceased in cemeteries? I have two antique dressers with mirrors from 1893. That silver has been out of the market for over a century and won't ever return. The mirrors still work nicely. OKAY! Lehman must have been referring in part to silver in India. I ran into someone in Dallas who told me that “Indian silver backs COMEX short sales.” That's like saying, if your freezer fails don't worry, it's backed by ice in Antarctica! Or if your little boy runs out of sand for his sandbox, it's backed by the

## THE PILGRIMS SIR ROBERT WORCESTER'S REFLECTIONS ...

Jan 26, 2012 - Well, never could this be more true than in the case of **Bob Worcester**. I cannot ... **Sir Robert Worcester**: Thank you, the ... **2012 Reflections Lecture**. ... left flowers in front of the American Embassy in **London** in an outpouring of.

But before I go any further, I want to bring to your attention the information a Pilgrim brought to my attention several years ago. There's a man in Brussels convinced that I am in the centre of the spider web of an international conspiracy. His work intrigued me when I found it on the web. It seems that in becoming Chairman of the Pilgrims I had taken on a very powerful role indeed. No doubt that's why Lord Sherfield knew so much about me.

It seems that to quote this chap, and there's more, much more, on a web site I've just discovered, "*The Pilgrims organization is a cluster of intermarried old-line rich, Royals and robber barons who have created the world's financial structure.*"<sup>1</sup>

And he goes on, and on, and on, about how powerful we are and how we conspire to run the world, and is joined by others who by association have uncovered just how we have among our membership, in Britain and in the US, the establishment of senior diplomats like Peter Carrington, Generals like Inge, Guthrie and Bramall, Admirals too Mike. In America too, with wealth like David Rockefeller, business and Wall Street barons, and together the Pilgrims plot, in secret, to take over the world. I must be living proof of how secret this establishment network is. Seventeen years, and I never knew it was going on around me.

He referenced someone in Brussels---actually Joel Van Der Reijden, my BEST associate in sourcing Pilgrims info, is in Amsterdam <https://isgp-studies.com/> and Worcester failed to cite him by name, but notice the second and small paragraph in the above scan---he had to mention ME!

**Ed Steer, this British big shot did not mention Ted Butler whatsoever!**

<sup>1</sup> Savoie, Charles, The Pilgrims Society, December 2004, <http://www.wikispooks.com/wiki/File:Pilgrims.pdf>

Now, what is it about Ed Steer anyway???. In his Casey Research column for September 26, 2012, Ed Steer again publicly genuflected before another, on that occasion Chris Powell---

**“Not surprisingly, Chris Powell put in by far the best showing of the three of us.”**

So Mister Ed Steer, why are you doing any writing about PM at all, if Chris Powell and Ted Butler are the only voices with original info? Too much bootlicking and yes---brown-nosing. STOP! Allow everyone credit for their unique contributions! I’ve written far more on silver history than any half dozen others combined.

Ed Steer told me on January 3, 2011 “That doesn’t excuse the fact that I don’t acknowledge your monthly commentaries, which I should. I mentioned to you that the reason I don’t post your work is because of length. Your work is great Charlie, but far, far beyond the readership of my column.” WHAT? His readers weren’t smart enough to read and understand plain English? **And who said anything about posting my work? How much space does a simple LINK take up? Why not allow people to decide for themselves if they’d read it?** At that time my work was posted full length at Silver Investor site and remained there till September 2018 when I insisted it be deleted due to Morgan’s refusal to admit his You Tube “interviews” are all paid advertisements!

After I did what I thought I was supposed to do and blew a trumpet for GATA in my piece “The Conspiracy Against Gold,” May 2006, see page 4 of 58 pages--- <http://nosilvernationalization.org/59.pdf>

Chris Powell of GATA on May 16, 2009 demonstrated his disdain for my work by alleging I “fly off onto dozens of conspiratorial tangents”

<http://www.gata.org/node/7424> I sent out complaints about Powell's unwarranted broadside against me, and that evidently is when Ed Steer decided to cease mention of my work! He had to cow-tow to Chris and Bill to remain the rubber stamp on the GATA board!

On June 25, 2011 Ed Steer again gave me a bum steer---"I really appreciate you sending me this, but it's way too long for my column, and I still haven't changed my mind about that, with best wishes, Ed."

Note! Ed Steer was telling me he wouldn't link my presentations, which is what I asked, not that he reprint them in their entirety! Ed Steer linked hundreds of items over the years. He refused to give me ONE LINK, and Ed Steer refused to let people decide for themselves if they'd read me; and he intentionally obfuscated the issue which was that the others he LINKED were LINKED not reprinted in entirety and all I asked for was a LINK and he insinuated that a LINK would be TOO LONG?

Ed tossed disclaimers my way which meant "Bill and Chris dislike your research and don't want it boosted." Ed Steer---GATA rubber stamp. Doug Casey also didn't want any mention of my work on The Pilgrims Society at his site.

**"EVERYTHING ABOUT SILVER AND GOLD HAS GONE THROUGH TED BUTLER FIRST"**

oh really? I received this on August 23, 2008, from Robert Quartermain president of Silver Standard Resources of which I was in a private placement in 2001 for the Diablillos Argentina acquisition. Now WHY did Robert Quartermain mention ANYONE else if "everything about silver and gold has gone through Ted Butler FIRST?" That was MY research piece "Silver Raiders," 15,914 words---not Ted's, that Quartermain read! All these characters in the PM community are aware of me and refuse to allow any mention of my work! I had breakfast in 2003 with Quartermain at a regional shareholders meeting; I showed him a copy of "Pilgrim Partners---40 Years of British-American Fellowship" (1942). He grinned and asked, "Are you a member?" My reply---"You're kidding! I'm a grain of sand on the beach! What they're looking for is Mount Everest!"

Gentlemen,

You have emailed myself or Paul LaFontaine over this last year on silver prices and Comex in light of comments made by Mr. Butler and others, starting with Ted's piece dated November 19, 2002 .

It is late Friday and I am off on a plane for a week to New York with shareholder meetings in Boston and Chicago as well. This will be followed over the next two months with similar meetings in Denver, LA, LaJolla, San Diego, Dallas, San Antonio, New Orleans, Miami, Atlanta, Toronto and London. In addition, I am still trying to grow Silver Standard. Thus I have to balance my time.

I had not been familiar with options and futures trading and so to better understand the issues which were raised by Mr Butler in emails sent to me last November, I have studied futures trading and in two weeks will be sitting down with a futures trader to hopefully round out my education in this department. On July 7, I had the opportunity to visit the Silver Pit of the Nymex/Comex, which was arranged by Jeff Christian of CPM Group. I received numerous publications from them on the operation of Comex.

The purpose of this email is to let you know I am on the file, and will over the next few months formulate on the matter. I will also speak with Mr. Butler as well as follow up conversations with Mr. Morgan and Mr. Puplava, as I finalize my research. I am currently finishing reading the article by Charles Savoie on Silver Raiders.

My intent is to let you as shareholders know that I take your concerns seriously, and I attempt to address all aspects of the silver business in my desire to make Silver Standard the best silver investment vehicle. To do effectively I must balance my time, so please bear with me as I move forward on this matter.

Hi Charlie,

I just wanted to get it clear on our last phone conversation, that our agreement was free editorial content on your next essay? In other words, if I heard you correctly you would be using specific names etc. Is that correct?

I just want to make certain that I have it correct, your work will go down in financial history, but many wish to hide their respective heads in the sand.

Two points I failed to mention,

1. I did talk to Bill Murphy about a PAC for silver, he directed me to Chris Powell and I copied you on that email
2. I did let Ed Steer know about your computer being down.

**"YOUR WORK WILL GO DOWN IN FINANCIAL HISTORY" said David Morgan on May 17, 2004.** Dozens of sites blacklist it! Why? Because Bill Murphy and Chris Powell "nixed" it? Because not marketing paid newsletter subscriptions, site memberships, books or metals, this DQ's me from inclusion in the Circle of Peers? And because this Pilgrims Society revelation is just too awful to bear??

## The Silver Users Association and Homeland Security

**Ed Steer**  
*GATA (director)*

Published : October 19th, 2007  
1028 words - Reading time : 2 - 4 minutes

An organization that hasn't received a lot of press from the silver community lately is about to get some.

The Silver Users Association is having a fall conference on November 6-7 at the Army-Navy Club in Washington, D.C. The S.U.A. has been around since 1947 and is the only commodity that has its own users association. Virtually all commodities have producer associations, and most are of the harmless variety. Only two are not, OPEC and DeBeers. Both are price fixing cartels and are considered to be illegal. Their objectives are to keep the price of their products as high as the market can bear by controlling supply.

So what does a “users association” do? What is its reason for existence? Here is the SUA’s “Objectives” from their own website, which is linked [here](#). Note in particular the second bullet point... *“Cooperate with appropriate government agencies to reduce excesses in silver speculation.”*

Ted Butler and Charlie Savoie, two of the most prolific writers about silver on the Internet, have their opinions about the SUA...

Back in March 2001, Ted Butler wrote an essay about the Silver Users Association entitled [“Silver Users, Silver Abusers”](#) and it’s well worth the read. In it, he describes the SUA as follows: *“Now let me give you my description of the Silver Users Association. I’m not about to beat around the bush. The SUA is a dubious, manipulative organization, whose sole purpose is to artificially depress the price of silver.”* Further down in this essay, Ted has this to say... *“On any silver price rise, the SUA will be all over the Commodity Futures Trading Commission (CFTC), to pressure the COMEX to curb the “excessive speculation.” According to the Silver Users Association, silver only rises due to “excessive speculation”, and never because of legitimate market fundamentals. Where will the SUA’s attention be focused? At the only place it can be focused – on the paper traders on the COMEX - or, more correctly, on the paper traders holding long positions. They are always the culprits. Even though we are at the lowest inflation adjusted price for silver in 5,000 years, the SUA will look to assign blame for any price increase on paper silver investors. Trust me - you can take this one to the bank.”*

The other essay, written in September 2003, about the Silver Users Association is entitled [“The Silver Raiders.”](#) The author is Charles Savoie. This is a very small part of what he had to say... *“I don’t know what you could compare them to in any other commodity, because this is the **only** users group in any commodity. If anyone can show why they are not an illegal short-side price fixing cartel in violation of antitrust law, regular readers of this website would like to see it. That would be like proving the great white shark isn’t a marine predator.”*

If you wish to read Savoie’s essay, my advice is to buy a six-pack or a couple of bottles of wine and then pack a lunch, as his essays are more like small novels. I would advise spending some time there, as there is some really incredible information in it. You won’t have to read very far before you get some idea of how vast the conspiracy against silver really is.

Anyone hear about The Pilgrims Society from Ted Butler, GATA, or other source but me? And Ed Steer assigns my credits to Ted Butler (and everyone else's also!)

At a GATA page <http://www.gata.org/about/committee> there are photos of Bill Murphy and Chris Powell and no photo of Ed Steer. It was necessary to have at least three members of a board of directors for GATA organizational charter. Steer is a mere afterthought and a blank place holder in GATA. Murphy had four lines of description; Powell had six; Steer has ONE LINE at the BOTTOM. Murphy was with Merrill Lynch; Shearson Hayden Stone; and Drexel Burnham---all Pilgrims Society run investment banks. **THIS IS THE REASON GATA SHUNS MENTION OF THE PILGRIMS SOCIETY---GATA IS CONTROLLED OPPOSITION COVERING UP!** The book described below is a zero job and has NO info on The Pilgrims Society, the group isolated at the top of the fiat money system---

#### Jan 31 Termite Invited to Address Precious Metals Conference! Charles Savoie

LORD Conrad Black argued that "a gold standard today would not work—it would put too much power in the hands of a small group of miners" so what was he doing invited as a keynote speaker at a major annual precious metals mining conference? Black's preference is that "too much power be put into the hands of a small number of PILGRIMS SOCIETY members (he was in the leaked 2002 roster!) Black caused investors a \$649 million loss exclusive of share price collapse in his former media empire and now he has Conrad Black Capital Corporation! Did he short his own company? How does a scoundrel (pardoned by Trump as a favor) get elevated to dignitary status at a gold mining conference when he's running them down?

Hi Charles -

Thank you very much for your note. It means a lot coming from someone who's work, I think, has been ground breaking. Between you, Ted, Bill and a few others I have learned from the best in the world and have been able to formulate my own discoveries because of the understanding that you have shared with our community.

I am truly amazed how long this battle for truth has been going on. Even though I took up the fight about 8 years ago I know many have been at this much, much longer and that always impresses me.

Keep up the excellent work because we are all learning from what you do.

All the best

Bix

On May 30, 2008 at Silver Seek, Bix Weir said this about my work---

ilverSeek/1212127200.php

I'm not an expert on the COT reports but Ted Butler is. He is known around the world as the #1 expert on your COMEX Commitment of Traders Report. This is undisputed. His conclusion is that the 80% short concentration by less than 8 traders when there are THOUSANDS of other market participants is 100% proof of short side manipulation no matter how much the CFTC wants to deny it. Read his research for yourself (<http://www.investmentrarities.com/tb-archives.html>). But the bigger question here is why doesn't the CFTC hire or consult with Ted Butler? And why don't they talk to David Morgan or Jason Hommell or Izzy Friedman or Charles Savoie all of which are world renowned experts on all aspects of silver.

A few years later I noticed Bix placed "Correcting Antal Fekete's Historical Silver Errors" on his site in a pay to read status! All my work is 100% free public access! He didn't ask me first if he could charge others to read my presentation, nor did he offer me any piece of the "take;" then in an exchange, Bix insisted I "don't understand Fair Use!" Well what he did was similar in a copyright sense to placing a sign in my front yard "Campsites for Rent" and not asking if he could do it and not offering me any of the proceeds! The above description Bix Weir made of me---at his site---he deleted my name from that content later at his site---what, did he forget to ask Silver Seek to delete it? They could now, I have screenshots! The account of that disappointing episode is at the bottom of the start page of [www.silverstealers.net](http://www.silverstealers.net) ---

Brief refresher Overview on The Pilgrims Society London & New York---

The Christian Science Monitor, April 19, 1941, page 4, "Anglo-American Pilgrims Progress" stated---

"To go through the list of diners and dinners would reveal a dossier of **SOME OF THE GREATEST MEN OF OUR TIME.**"

**"THE ELITIST PILGRIM SOCIETY SEEKS TO MERGE THE UNITED STATES INTO THE BRITISH COMMONWEALTH AS A BASE FOR WORLD GOVERNMENT.** The major international banking firms on both sides of the Atlantic are well represented in the Pilgrim Society."---Gary Allen in "A Look at Establishment Newspapers," American Opinion Magazine,

September 1970, page 15

“The Pilgrim Society, sometimes called **THE WORLD’S MOST SECRET ORGANIZATION** has as its goal the reuniting of England and America.” - --Gary Allen in “Teleslick,” America Opinion Magazine, October 1970, page 22

The actual name is “Pilgrims” Society---plural. Pilgrim Society would have sounded better due to two “s” letters being too close together.

**“THE SUPER SECRET PILGRIM SOCIETY, WHOSE OFFICIAL LOGO IS ENTWINED AMERICAN AND BRITISH FLAGS, IS DEDICATED TO MERGING BRITAIN AND AMERICA.”** (page 27, ibid)

[www.disinformazione.it/pilgrims.htm](http://www.disinformazione.it/pilgrims.htm) said---“The Pilgrims Society remained **HIDDEN** until relatively recent years, **TO IDENTIFY THE APEX OF POWER.”**

<http://www.jordanmaxwell.com/documents/us-congressional-record-1940-british-israel-world-1.pdf> features testimony delivered in the House of Representatives on August 19, 1940, by Montana Congressman Jacob Thorkelson, regarding The Pilgrims Society and its intent to merge us into a British controlled world empire!

“There are several curious things about these Pilgrim functions. In the first place there is present at these dinners **AN ARRAY OF NOTABLES** such as would be difficult to bring together under one roof **FOR ANY OTHER PURPOSE AND BY ANY OTHER SOCIETY.”**

Montana Congressman Jacob Thorkelson, Congressional Record, August 19, 1940, referred to an address by Joseph H. Choate, Vanderbilt family operative, one of the founders of The Pilgrims, as saying that those who would many years later celebrate the start of the second century of The

Pilgrims Society in 2003---

“...will have cause to bless their fathers that they founded this Society  
**AND KEPT THE WORLD ON THE RIGHT TRACK.”**

“An ultra-secret organization known as the Pilgrims Society.” ---“The Hidden World” (2015, John Baselmans, page 240).

**“WE ARE VERY PARTICULAR AS TO WHO WE LET IN”** ---“The Pilgrims of the United States” (short run book, 2003, page 37, document dated 1919).

“We don’t dare confront the implications. I think we all agree there was a conspiracy and we don’t want to know. It involves SUCH A POWERFUL HIGH FORCE IN WHAT WE CALL THEHIGH PLACES, IF WE DO KNOW, EVERYTHING MIGHT FALL APART.” ---Leonard Bernstein, globally prominent music conductor, about the Kennedy assassination; Associated Press, November 24, 1980.

Guess what! Bernstein’s name was in The Pilgrims NYC 1980 as an outer circle flunky member!

Samuel Johnson (1709-1784) warned, “Where secrecy or mystery begins, vice or roguery are not far off.”

In the December 1975 American Opinion Magazine, Gary Allen in “Building Communism,” page 39 correctly concluded---“It is now clear that an arcane conspiracy, backed by finance capitalists in the United States, has been behind the Reds from the beginning.”

“The Order will thus work silently, and securely; and though the generous benefactors of the human race are thus deprived of the

applause of the world, they have the noble pleasure of seeing their work prosper in their hands. Out secret association works in a way that nothing can withstand, and mankind shall soon be free and happy.” --- attributed to Austrian professor Adam Weishaupt, credited with founding the Order of Illuminati circa 1776.”

“The Pilgrims Society is the organization which consistently recruits only very elitist members of society, many with nearly endless resumes. Special thanks to Charles Savoie for having done so much invaluable work on the Pilgrims Society.”---Joel Van Der Reijden <http://www.isgp.nl/>

Remember when I said that the Bilderberg Group was a red herring?” (Found at Logistics Monster, **“This IS the center of the web—meet the Pilgrims Society,”** citing my work and that of Joel Van Der Reijden).

<https://infrakshun.wordpress.com/2015/01/22/puppets-and-players-ii-the-pilgrims-society/> ---

“The Pilgrims Society is a **massively influential** Anglo-American grouping of the Global Elite that **remains unknown** to the general public yet has members who number some of the most powerful men and women for the last 100 years. If you look at the small print of major historical events Pilgrims show up with alarming frequency unlike any other organization in the world. It seems the U.S. Monetary system itself is crawling with Pilgrims.”

Page 166 of “The Davis Dynasty---Fifty Years of Successful Investing on Wall Street” (2003 published by John Wiley & Sons) authored by (FUNNY) John ROTHCHILD (note Rothchild not the usual Rothschild; either a made-up name or in any case a total flunky) ---

In 1966, Shelby and Biggs bumped into Hugh Bullock: a devout Anglophile, snazzy dresser, president of the Pilgrim Society, and friend of both their fathers. Bullock ran a conservative investment house based in London. A young salesman in Bullock's New York office, Martin Proyect, had convinced his boss to launch an "aggressive" mutual fund to go with the stodgier offerings in Bullock's lineup.

Hugh Bullock, second generation member of The Pilgrims NYC and its president 1955 to 1996 was "a [leader](#) in the financial world" and based at 1 Wall Street.

### **"WE ARE VERY PARTICULAR AS TO WHO WE LET IN"**

2003 short run book, "The Pilgrims of the United States," 1919 document, page 37.

In "Rhodes---The Race For Africa" by Antony Thomas (St. Martin's Press, New York, 1997), we find on page 6---"Why should we not form a secret society with but one object, the furtherance of the British Empire and the bringing of the whole uncivilized world under British rule, for the recovery of the United States, for the making the Anglo-Saxon race but one Empire?"

"A brief factoid--- Daily Eastern News, published by Eastern Illinois University, reported on January 1, 2009, that in the span of about one year, prices for salt for use on icy roads climbed from \$49 to \$168 per ton---an increase of 343 percent! According to <http://wikimapia.org/5613184/Morton-Salt-Mine> the salt deposit at Grand Saline, Texas, East of Dallas, measures 20,000 feet deep and 1.5 miles diameter and "has sufficient resources to supply the entire United States with salt for thousands of years." That is far from the only salt resource we have direct access to! It isn't increased shipping costs as most salt is shipped by rail. Why should a commodity in such indisputable saturated oversupply race forward in price? Yet with world silver in ground supplies predicted to reach extinction in 11 years, the price keeps getting hit!"

Coronet magazine, April 1955, page 102 and 106, in an article entitled, "Silver Magic," said---

"Silver's special place in history can be accounted for not only by its beauty, but by its amazing willingness to do anything man wants it to. In a dozen industries, engineers have been surprised to discover that silver dons overalls to do jobs that baffle other metals."

The Pilgrims Society London 2017 executive committee---note that half of these people are actually flunkies and pencil pushers for other members--- more important ones are highlighted---the Royal family stands far above all the members in London and New York both---
